VOL. XXVI BELLEFONTE, PA., THURSDAY MORNING, APRIL 18, 1895. NO. 16

WILL NOT ATTEND.

President Cleveland Declines the Invitation of Chicagoans.

Chicago, April 14.—Mr. Henry Robbins received from President Cleveland this evening a letter declining the invitation of a number of business men of Chicago to attend a public reception here to himself and Mrs. Cleveland. On April 6 one hundred of the most prominent citizecs of Chicago, both democrats and republicans, sent an invitation to the president stating that they were anxious to express their deep sense of appreciation of his statesmanlike and courageous action in maintaining the financial credit of our nation and his attitude in favor of the preservation of sound national currency. There was much disappointment at Mr. Cleveland's refusal to come here, but his excuse is well received.

In his letter declining the invitation Mr Cleveland says:

"If the sound money sentiment abroad in the land is to save us from mischief and disaster, it must be crystalized and combined and made immediately active. It is dangerous to overlook the fact that a vast number of our people, with scant opportunity, thus far, to examine the question in all its aspects, have nevertheless been ingeniously pressed with special suggestions which in this time of mistortune and depression find willing listeners prepared to give credence to any scheme which is plausibly presented as a remedy for their unfortunate condition.

"What is now more needed than anything else is a plain and simple presentation of the argument in favor of sound money. In other words, it is a time for the American people to reason together as members of a great nation which can promise them a continuance of protection and safety only as long as its solvency is unsuspected, its honor unsullied and the soundness of its money unquestioned."

Stole His Fiance's Money.

Wilkesbarre, Pa., April 14.—Fred C. Price was lodged in jail here to-night. Last January he won the heart of Miss Ellen Allen, at Lock Haven, and they were engaged to be married. The father of the young woman was well pleased with the match, and gave his daughter $700 to buy furniture. With the money andthe young man she started out to buy what was needed for a comfortable home. On the way to the store Price convinced her it would look better when they went to buy if he had the money and paid the bills. His sweetheart consented and handed over the cash. While they were inspecting the furniture, Price excused himself for a moment and took the first train out of town for the west. He was traced to Cincinnatti and from there to Benzette, Pa., where he was arrested. He has confessed and says he spent the money.

Wants to Share His Fortune.

Chicago, April 14.—A special from San Francisco says: Margaret McNeil, of Pittsburg, filed a suit yesterday in the United States Circuit Court asking that a divorce granted three years ago to her husband be set aside. The McNeils were married sixteen years ago in Pennsylvania. Soon afterwards McNeil left his wife and came to California. Several years later Mrs. McNeil was awarded a divorce for desertion and $10,000 alimony, but, unknown to her, McNeil had obtained a divorce in the Superior Court here on the grounds of cruelty. Since then he has accumulated a fortune estimated at $10,000. This fortune Mrs. McNeil now desires to share.

National Reform.

Grove City, Pa., April 14.—The Association of Prayer and Institute of Reform under the National Reform association began its sixth annual national convention here to-night. Prominent speakers and reformers from all parts of the country are present. The session will last all week and the usual sweeping reforms will be advocated. Prof. J. R. Dill, of Topeka, Kan., an evangelist of national reputation and secretary of the American Sabbath union, spoke to-night on "The Keystone of the Moral Arch."

Heir to $200,000.

Camden, N. J., April 14.—The ife of Charles Baker, of Stockton, a suburb, has been notified that she has fallen heir to a fortune of $200,000 by the death of a relative in Germany. Baker is employed as a collector by a Philadelphia firm and the couple lives in a modest little house in Camden's suburb. Mrs. Baker knew of her rich relatives in Germany, but she had no knowledge that she was to be made the heir, and the local notification came to her yesterday as an Easter surprise.

A Rare Opportunity.

Any man or woman without previous experience can earn pay for whole or part time for selling seed potatoes and nursery stock for J. E. WHITNEY, Rochester, New York. 25-47-1yr

JOINED THE MAJORITY.

Hon. R. Bruce Petriken, of Huntingdon, Passes Away.

Huntingdon, Pa., April 15.—A telegram received here this morning announced the death, in Philadelphia, at about 7 o'clock, of Hon. R. Bruce Petrikin, one of the most prominent members of the Huntingdon bar. About four months ago Mr. Petrikin was admitted to the Medico-Chirughical hospital in Philadelphia for treatment for a cancerous growth in the throat. The cancer developed despite the skillful attention the patient received, and his death weeks ago would not have surprised his most intimate friends.

Robert Bruce Petrikin was born at Muncy, Lycoming county, Pa., September 12, 1826. His father W. A. Petrikin, was born at Bellefonte, where his paternal grandfather William Petrikin, a native of Scotland, settled in 1798.

The deceased received an academic education at McEwensville, Pa., and completed his collegiate education at Lafayette college, Easton. Soon after leaving college he became a resident of Huntingdon, and on June 7, 1847, entered on the study of the law in the office of Andrew Porter Wilson, then and for many years afterwards an eminent and successful lawyer. Two years afterwards he was admitted to the bar and entered at once upon a lucrative practice as a partner with his tutor. From the outset of his professional career he was noted for his energy and skill.

At the breaking out of the rebellion Mr. Petrikin enlisted as a private soldier, but was soon made major of the Fifth regiment, Pennsylvania volunteers. He served with distinction in the army, and at the expiration of term of service returned to Huntingdon and resumed the practice of his profession.

Although elected to the senate of Pennsylvania in the fall of 1870, which office he filled for three years, he never sought or seemed to desire political preferment. His term in the senate was marked by a desire on his part to introduce and pass wholesome acts, many of which emanating from his pen, became laws, notably among them being the establishment of the fishery system and the fishery commission for the state of Pennsylvania, the law prohibiting the frequent changes in school books, and the law giving to laborers, miners and others a lien on wages.

As to his personal worth a biographer a few years since wrote these lines: "He is a gentleman of strong convictions, of pleasant and genial manners, and is intensely devoted to his friends. He detests ingratitude and infidelity. He is a fine scholar and a strong, terse writer. Now past the meridian of life, he is in possession of excellent health, and with his ripe experience as a lawyer and his love for his books, and with his well-stored and well-poised legal mind, he might justly be styled 'the mentor' of the Huntingdon bar."

Early in the sixties Major Petrikin was united in marriage with Mary Pohl, a daughter of Henry Pohl, of Philadelphia, and the result of this union was three sons and two daughters, four of whom survive. They are H. W. Petrikin, Esq., law partner of the deceased; Malcom, Miss Peggy and Miss Mame. Mrs. Petrikin died twelve or fifteen years ago.

The body of the deceased is expected here to-morrow morning, and the funeral will occur on Wednesday afternoon. It is likely that the Masonic order and Grand Army post, in both of which Mr. Petrikin was prominently identified, will attend in bodies.

Easter Sunday.

Easter is generally supposed to mark the sure approach of spring and warmer weather. Easter Sunday, although not very warm, was still a pleasant day, and warm enough to admit of a goodly number of spring costumes. The day was celebrated in Bellefonte in the usual way.

All the churches held special Easter services and these were extraordinarily fine. Especially was this the case in the Episcopal church, where a choir of twenty-nine male voices rendered some of the loviest Easter music heard in Bellefonte. The church was crowded morning and evening. The music in all the other churches was also above the average and everybody seemed to enjoy it.

Earthquakes Distroy Property.

Rome, April 14.—Several districts of Sicily were shaken severely by earthquakes to-day. The shocks were most violent in the province of Syracuse. In Monterosso Almo the facades of a church and several houses were laid in ruins, and many other buildings were damaged. The dragoon regiment in the barracks were alarmed after the first shock and was marched out in haste, as the walls were cracked and expected to fall. The people of the town are badly frightened and refuse to stay indoors. No deaths have been reported.

Miners May Unite.

Philipsburg, Pa., April 15.—Announcement made this morning by officials of the Philipsburg Check Weighers' association of a convention of miners to be held in this place on Wednesday, to send representatives to the district convention to be held at Dubois Friday evening, has brought to the surface the possibility o the Clearfield and Beech Creek region miners uniting with the miners of Dubois in a demand for an advance of 5 cents a ton.

An ex official of miners' organization said to-day that he did not regard a strike as possible in view of the instructions sent out last Saturday by the president of the miners' national union, though it was probable a demand for an advance would be made. Local operators take the same view as to the improbability of a strike at this time and claim that they are less able to pay more for mining than they were this time last year.

Secretary Reeder's Report.

The first quarterly report of General Frank Reeder, secretary of the commonwealth, has been made public. The fees amounted to $15,000, an increase of $4,000 over the same period four years ago. Seventy-one charters were issued last month, three of them being railroads, and theb alance for manufacturing cncerns. One hundred and three foreign corporations were given permission in March to open branch offices in this state. This is an unusually large number.

Merrimac Overflows its Banks.

Concord, N. H., April 14.—Heavy rains last night and to-day caused the Merrimac river to overflow its banks and submerge the main thoroughfare leading eastward from this city. Through express trains for Montreal and the west were cancelled in Boston to-night on account of washouts. This is the first time in fifteen years that high water has necessitated the stoppage of trains on the Concord division of the Boston and Maine road.

A Johnstown Tragedy.

Johnstown, Pa., April 14.—A shocking tragedy, in which a young man named Will Boyd, a relative of Mayor Boyd, lost his life, occurred yesterday afternoon. Yound Boyd raised up in front of a gun just as his companion, Vickroy West, aimed to shoot a duck. The gun was discharged at the very instant, the load taking full effect in Boyd's body. The victim died in fifteen minutes.

New York Has 1,888,780.

New York, April 14.—The police census returns are nearly all in. The population of New York, according to these figures is 1,888,780, an increase since the census of the state board of health, taken in 1893, of just 87,041. This is considered a very conservative estimate, and there is no doubt that when the actual figures are all in it will be materially increased.

Shooting Tournament.

Pittsburg, April 16.—The Interstate Dealers and Shooters' association opened up a three days' shooting tournament at Exposition park this morning. The famous cracks, Brewer, Elliot and Class, who are entered in the match, did not put in an appearance. Among the famous shots from abroad, who are here to participate in the tournament, are Dupray, Barlet and Fieles.

New Paper to be Issued.

The publication of a new paper will be commenced at Flemington and Loganton inside of two weeks. K. G. Bottorf, a former employe of the EXPRESS, will have charge of the main office, which will be located at Flemington, in the commodious rooms lately vacated by W. W. Brown & Sons. Already a large subscription list is promised, and the new journal will, unless the signs fail, prove a good success.

THE various officials in Chicago who make the matter of the shipment of cattle a daily concern do not place any faith in the cry of Secretary Morton and others who suggest that the high price of beef is due to a trust. They present figures showing that the scarcity and consequent high price is a natural scarcity and that it is not likely to be improved for some time. The figures for Chicago, Omaha, Kansas City, and St. Louis show cattle receipts of 1,134,686 for the first threemonths of 1894 and 984,325 for the same period this year. Another point against the charge that the trust is buying cheap, holding back and selling dear is that the cattle values have advanced faster than the wholesale price of beef. The scarcity has been coming on for several years and the experts believe it will last for several years. The cause of it lies in the drought and the g neral distressing conditions that have marked agriculture in the West since 1892.

—Magnolia brand Canned Tomatoes, 3 cans for 25cts. at Eureka Grocery, High treet, next door to postoffice. tf

IN THE COUNCIL CHAMBER.

No Business of Great Importance Transacted.

Council convened at 7.30 p. m. Monday evening with Messrs. Miller, Gerberick. Williams, Hillibish, Beaver, Brockerhoff, Brachbill and Bush present. President Miller was in his accustomed place and Clerk Isaac Mitchell read the minutes of the previous meeting which were approved as read.

Mr. S. S. Lyon was present to explain to council the condition of his pavement which was complained of at the last meeting.

Mr. E. McKibben was present to submit an offer to furnish broken stone to the borough at the rate of 45 cents per cubic yard.

Chas. J. Taylor was present to ask permission to dig a ditch across Linn street for the laying of a terra cotta drain pipe to the residence of Ellis L. Orvis.

C. C. Ghuey asked permission to connect a drain pipe with sewer in alley south of his property on High street.

Quite a lengthy communication was read from the Village Improvement Society.

The Street committee reported an attempt to clean up the streets and alleys, but also reported a very bad condition of a number of alleys occasioned by the washing of buggies, grooming of horses, etc. They also reported an offer of $37.50 for the old Lamb street bridge.

Water Committee reported the usual number of hours at the pump. Also, that all the water contracts have been signed except that of the Central Railroad company. John Gross for High street, and William Walker for Allegheny street were recommended as being the two persons to whom privilege be granted for sprinkling the streets. Mr. H. B. Pontius was recommended as water assessor for the current year.

The Fire and Police and Nuisance committees had no reports to make.

The Village Improvement committee endorsed the communication from the Village Improvement Society.

Permission was granted Charles Taylor to cross Linn street, providing he leaves the street in the condition he found it.

On motion of Mr. Bush the offer of the Central Railroad company, of $37.50 for the old bridge was accepted. Regarding water contract with the Central railroad it was the opinion of council that the rate of $150 per year was not excessive.

There was quite a discussion over the question, but it finally ended in the water committee being instructed to have the water contract signed or give notice not to use it.

The recommendation of the Water committee so far as the sprinkling of streets are concerned, be accepted. Also the recommendation of H. B. Pontius as water assessor for the current year.

The Water committee was instructed to have the fountain in the diamond painted and the water turned on.

No other business being before the house council adjourned with the approval of the following bills:

Edison Electric Light Co.	$278.25
Street pay roll	37.50
Water pay roll	49.91
Police pay roll	35.00
Electric Light Co. lockup	4.70
Total amount	$405.36

Tried to Kill Himself.

Chicago, April 16.—Dr. N. J. Neilson, a prominent physician, who had until six months ago enjoyed a lucrative practice, made a desperate and probably successful attempt to kill himself this morning at his home, in the presence of his mother. She was horrified to find him writhing in agony on his bed from the effects of taking a dose of chloral. While the mother was trying to find some antidote Dr. Neilson suddenly rose, seized a razor and drew the blade across his throat before Mrs. Neilson could stop his hand.

She sprang on him, wresting the weapon from his grasp. Breaking away the crazed man rushed into the kitchen, where he seized a knife and again slashed his throat. Then he ran back to his room and, turning on the gas, tried to keep the frantic mother, but the loss of blood and the chloral made him unconscious. He had become despondent through illness and consequent loss of practice.

Encampment Will be Held.

Harrisburg, April 15.—A conference was held at the Adjutant General's Department this evening. Gen. Stewart talked over the matter of summer encampments with Brigadier Generals Gobin, Wiley and Schall and Quartermaster Gen. Logan. It was agreed that they cannot be dispensed with the military code being mandatory regarding encampments. The First Brigades will probably go into camp July 5 to 13 and the Second and Third from Aug. 4 to 10.

2,500 heavy winter flannel shirts, worth $1.25, our price, 50 cents.

LYON & Co.

THE INCOME TAX.

The News from Washington Is of a Rather Mixed Character.

Washington, April 16.—It is stated at the treasury department that no additional instructions will be sent out to collectors to hunt up those who have failed to make their income tax returns. It is not necessary. The law provides for that. Collectors will be expected to immediately bestir themselves and investigate all cases where it is expected that false returns may have been made, or where no returns have been made by parties who are generally believed to have been liable to the tax. The object of this move, it is stated, is not only to collect the just dues of the government under the tax, but to inculcate respect for law and to show as far as may be that e ecutive officers empowered with the enforcement of laws have no discretion but to do their duty, however objectionable the law may be.

Commissioner Miller late this afternoon issued an additional circular to internal revenue collectors in which he says: "In case of incorrect income tax returns now filed in your office, you will notify the persons who filed returns that they must appear within a reasonable time, specifying the date and place for appearance, and correct or explain said return, and that on their failure to appear and make said corrections you will correct and increase the amount of such returns, stating the particular corrections which shall be made and the amounts by which said returns will be increased.

"Where persons and corporations liable to make return have neglected or refused to make return, and where in your opinion false or fraudulent returns have been filed, you will give notice to the delinquents and to those who made such false or fraudulent returns to appear and show cause why penalties shall not be assessed against them."

Perry Scooped In.

Hoboken, N. J., April 16.—The arrest of Train Robber Oliver Curtis Perry, at Weehawken, this morning, settles all reports of his having been seen at many points between the Matteawan asylum and Amsterdam since his escape from Dr. Allison's custody on Wednesday last in company with four other convicts confined in the Matteawan institution. Perry is now in the Hudson county jail, Jersey City, awaiting the arrival of New York state officials. As he is a fugitive from justice, extradition proceedings are unnecessary and he will be surrendered to the proper officials on application.

For Gross Disrespect.

Brooklyn, April 14.—At the instigation of Captain Frederick Rogers, Commodore Sicord, of the Brooklyn Navy Yard, placed First Lieutenant Lawrence H. Moses, of the marine corps, under arrest yesterday afternoon. The cause of his arrest was gross disrespect to his superior officer, Captain Rogers, but just what the disrespect consisted of cannot be learned. The case will be reported in full to the Secretary of the Navy at Washington and t is possible the Lieutenant will have to stand trial by court martial. Lieutenant Moses is a son-in-law of ex-Commissioner of Pensions Green B. Raum.

Water Famine in Pittsburg.

Pittsburg, April 16.—As a result of the break in the old main water pipe from the Brilliant pumping station of the Pittsburg water works, the entire city is to-day suffering from a water famine. Many important business houses and industrial plants and the Wylie avenue cable line have been crippled, and exceptional inconveniences are being experienced in all parts of the city. It is not expected that the damage will be repaired before to-morrow. There are out two feet of water in the big Highland reservoir.

Result of a Drunken Fight.

Wilkesbarre, April 14.—A number of Slaves engaged in a drunken fight in a boarding house at Maltby, last night. Geo. Lines was thrown out of the house. He returned with a big butcher knife, and before he could be disarmed, fatally stabbed Mrs. Annie Tonish, the mistress of the boarding house, and cut her husband, Alexander Tonish, nine times. He then threw his knife away and jumped out of a second story windew. He was captured in a mine hole, where he had taken refuge and lodged in jail.

Loss Caused by Tramps.

Wilkesbarre, Pa., April 16.—A barn and other outbuildings belonging to Michael Binnick, a farmer, residing near Nanticoke, were destroyed by fire to-day. Before assistance could be rendered, eight cows, several heifers and five horses were burned to death. The fire was started by tramps who had been sleeping on the promises. It is not known as yet whether any of them were burned or not. The loss will reach $8,000.

THE CENTENNIAL

Did Not Receive a Great Boom Tuesday Night—Will Meet Again on Friday Night.

When eight o'clock came around on Tuesday evening not over 75 to 100 people were gathered in the Court House, in answer to the call of the Burgess to see what could be done toward the holding of a centennial celebration in this place the first week in June. Burgess Gray called the meeting to order and stated the object thereof. An organization was then effected by the election of John C. Miller president and the newspaper representatives present secretaries.

On taking his seat Mr. Miller called on General Beaver for a speech. The General made one, but it was not exactly the kind of a speech anticipated by some. He deplored the fact that so few of the very business men of the town which a big celebration would most benefit, should be conspicuous by their absence, and pronounced it a shame and a stigma on the present generation that they should show such lack of enthusiasm or allow an event of such great importance to go by unrecognized in the way it should be. Bellefonte has had an illustrious past, and there is much that could be reviewed with interest to all, and, that should be, too. But it was not right that the burden of work and expense that a big celebration would naturally entail should be borne by parties who would receive no benefit there from whatever, and the speaker, for one, did not propose to do it. He was willing to co-operate with others, but he wanted others to do their part.

Several other brief speeches were made and it finally ended in the appointment of a committee to work up an interest and then adjourning until Friday evening when another meeting will be held to see what can be done.

For ourselves, we must say that it is a shame on the business men of the town who would reap the benefit of a three days' celebration that they are not willing to do their part in assistance; or, it willing show such a spirit of disinterestedness. They should be front and foremost in the movement and do all they can to further it along. Wake up! and let there be a rousing meeting Friday evening and then Bellefonte may be able to sustain its reputation.

The Undine band will be at the meeting Friday evening, and enliven it with some of their inspiring music. Ladies are cordially invited to be present.

Alive With Prospectors.

Wheeling, W. Va., April 16.—Since the rise in oil Sisterville field has grown alive with prospectors. People have gone wild, and everything is oil. Every man who can raise a few hundred dollars is out trying to locate a well. Prospectors are running all over the country, and they offer cash bonus on land, which, by the way, is hard to get, as farmers are holding off for more money. It is estimated that 400 small wells have been located for spring operations, and the number is increasing.

Thus far no very big deals have been made, although it is hard to tell what developments a day may bring. The runs during the past twenty-four hours have been about 7,850, an increase of a hundred barrels over the preceding day. Operators are complaining of scarcity of labor, and work is hampered very much on this account. Thousands of dollars are being sent to Oil City and Pittsburg for investment. James Burke, a "plunger," invested a hundred dollars a week ago, and is now worth over $50,000. Investing all as he goes.

A Luzerne County Lawyer Dead.

Wilkesbarre, April 16.—David L. Patrick, one of the most prominent lawyers of the Luzerne county bar, died to-day at the age of 69 years. He was born in Farmers' Mills, Duchess county, N. Y. The deceased came to this city in 1847 and was admitted to the bar 1850. In 1855 he was elected clerk of the courts, serving three years. In 1859 he was nominated and elected to the office of prothonotary, and in 1868 he was chosen burgess and served a full term. He leaves five children, three sons and two daughters. Horatio N. Patrick, the eldest son, resides in Scranton, is now practicing law in Lackawanna county.

Representative Lemon Dying.

Harrisburg, April 16—Representative Mackrell, of Allegheny, received a telegram from New York this morning stating that Representative Michael B. Lemon, of Allegheny, was dying at the Sturtevant House in that city. He arrived in New York on his way home from the Bermudas, where he had been for the benefit of his health. Mr. Lemon has long been a member of the house, and is also a member of the soldiers' orphans school commission. His illness is due to injuries received during the war.

AFFAIRS IN CUBA.

Everything in a Turmoil and Much Trouble Occurs.

New York, April 10.—Among the passengers arriving here to-day on the steamer Seneca from Havana was H. D. Neill, of Brantford, Ont. Mr. Neill said that in Havana, where he had been for some weeks, the situation was extremely uncomfortable, especially to foreigners. For two whole weeks he was followed by the government spies, who hounded his every movement.

"The war or revolutionary movement," he said this morning, "is growing rapidly and is undoubtedly extending over the whole island and the Spanish re[illegible] the fact [illegible] recognize [illegible] only too well.

Mr. Neill declared that the reporters of the Havana papers sent twice a day to the governor general's palace where the war news was detailed to them after being edited by the governor general. In case any news appeared that was not given out at the palace, the reporter was jailed and the paper severely disciplined. This, however, rarely occurred, as the papers did not dare print news derogatory to the government cause. Eighteen young men who were foolish enough to make a remark which contained the word "Government" were cast into cells at Mora Castle on the day before the Seneca left Havana.

Among the passengers were several young Cubans who, it was said, fled the island to escape the persecutions of the government troops, who kept them under the strictest surveillance, subjected them to insult and tried generally to terrorize the territory in which they lived. These men refused absolutely to speak on the subject, as they propose going back sometime and do not care to be called to account for their utterances. They prophesied, however, the ultimate success of the revolutionists.

A Leaking Steamer.

Norfolk, Va., April 10.—The British steamship Alvena, Captain Dow, bound from Kingston to New York, with passengers and cargo arrived here last night leaking. It was learned that on the 8th, with a heavy sea running, a large plate fell from the bottom of the steamer and that the whole of the after compartments were soon full of water up to the second deck. Three steam pumps and one hand pump were at once put to work, but they could not free the vessel. The passengers became excited. About 240 tons of cargo was thrown overboard but even this did not help much. The boats were cleared away and provisioned ready for launching but fortunately were not needed. The Alvena arrived here at 12 o'clock last night and is now anchored off Atlantic City.

The St. Paul Launched.

Philadelphia, April 10.—The International Navigation company's new steamer St. Paul, a twin vessel to the St. Louis, was launched at 1.05 p. m. from Cramp's ship yards, in the presence of Governor Hastings and staff and a large number of other guests. She was christened by Miss Griscom, daughter of the president of the company. There was no sticking on the ways this time and the mammoth ship glided gracefully into the water amid the shouts of the onlookers and the toots and shrieks of the whistles in nearby factories and other vessels.

The "Messiah" Needn't Pay.

Chicago, April 10.—If George Jacob Schweinfurth, the self-styled messiah, who runs a "heaven" near Rockford, Ill., cannot be compelled to satisfy the judgment for $50,000 obtained by George W. Coudrey for alienation of his wife's affections, the attorneys for the wronged husband will have him kept in the county jail at the expense of their client to see if jail rations and a cell for an indefinite period will induce Schweinfurth to satisfy the judgment of the jury. Word came from Rockford to-day that he claimed to have no property, and it is alleged that his estate is in the names of his "angels."

Americans want It.

London, April. 10.—At a meeting of the directors of the Checque bank, this afternoon, the chairman announced that an influential American company had offered a large sum for the purchase of the good will of the American agency of the bank and had agreed also to deposit a substantial sum as security, to be forfeited if their contract should not be carried out. The directors regard the offer very favorably. The manager of the bank is now in the United States.

Woman and Child Killed.

New London, Conn., April 10.—An unknown woman and baby were killed at Mystic this noon by an express train over the Providence road from Boston. As the train neared Mystic station the woman with the child in her arms lay down on the track. She had first crossed to the water side as if intending to go to the river, but seeing the train coming turned and placed herself before it.

The Friesland Arrives.

The steamship Friesland, which transported the Pittsburg *Times'* preachers on their trip to the Holy Land, arrived in New York Wednesday afternoon, from a cruise of two months in the Mediterranean. The Friesland left New York February 6, with a party of 440 excursionists bound for the Mediteranean and the Holy Land. There were in the party 43 clergymen, 23 doctors and 43 widows.

FORTY MILLION CAKES YEARLY.
THE PROCTER & GAMBLE CO., CIN'TI.

Street Railway in Bellefonte.

A gentleman was in Bellefonte this week for the purpose of securing the sentiments of some of our citizens with reference to the building of a street car line from the Milesburg railroad station to the railroad station at Centre Hall. He has the figure down fine and he feels confident that such a road would pay. The idea would be to give Bellefonte the benefit of the road by placing its tracks on several of its principal streets. Not only this, it would have the tendency to bring more trade to Bellefonte. For instance, the people could be brought here from Milesburg, Pleasant Gap and Centre Hall for less than half as in any other way. This certainly would be some inducement for the people to come to Bellefonte to do their buying and selling. One merchant is so thoroughly satisfied that it would be a paying investment that he offered to take one thousand dollars worth of stock. Another merchant said that he would take five hundred dollars worth of stock. If we can't have manufacturing establishments just now let us have the railroad and the others will follow. Keep the ball rolling.

Senior Reception.

The senior class of The Penna. State College will hold the Annual Spring Assembly in the college armory on Friday evening, April 19th, 1895.

The class has provided an extended list of patronesses, as follows: the Madames. Daniel H. Hastings, Cyrus Gordon, P. E. Womelsdorff, J. L. Spangler, G. G. Pond, Harriet A. McElwain, H. F. Harvey, J. M. Smith, Howard E. Butz, William Thompson, J. A. Reber, J. C. Bucher James A. Beaver, D. L. Krebs, Wilbur F. Reeder, Thomas W. Kinkaid, H. H. Stock, C. G. Furst, F. L. Sheppard, Geo. Horton, Thomas B. Cochran, Carrie Sides, George S. Good and Mrs. William A. Sampson. Committee, J. Eugene Hall, Chairman; Dunham Barton, William Kent Gibboney, Ralph Fitch Martin Thomas Risdon Cummings, Byron Barnes Horton, George Edward Seibert.

A special train leaving Bellefonte at 7.30 p. m., will be run over the Bellefonte Central for this event.

Death of James Crawford.

James Crawford died at his home in Young towhship, Jefferson county, on Friday, April 5. He was aged 36 years, 9 months and 21 days. Mr. Crawford was an industrious, conscientious man; a good citizen and a kind neighbor. He is survived by his wife and two children, John, aged 9 years, and Sarah, 5 years. His wife was a daughter of Mr. Z. S. Welsh, of Romola, Curtin township. Mr. Welsh was in Jefferson county to attend the funeral and he was accompanied home by his daughter and her children, who will spend the summer in Centre county. Mr. Crawford, the deceased, was a prominent member of the Knights of Pythias.

"Good Bye John."

The New York Tribune says that at a prayer meeting in a small town near Syracuse recently, an illiterate but good man made the following prayer: "O Lord. Thou knowest that we are thankful to Thee that our souls are safe from the fire that quencheth not. If a man lose his horse Thou knowest that he can buy another; if he lose his house Thou knowest that he can build another; if he lose his wife Thou knowest that he can get another, but if he lose his soul—good bye, John."

Wages to be Increased

Fall River, Mass., April 10.—The Fall River Iron Works mills posted notice this afternoon of an increase of wages to the rate paid before August 20, the increase to take effect April 22. These mills are not in the Cotton Manufacturer's association. This action was unexpected and caused consternation in manufacturing circles, but was followed by hilarious expressions of delight on the part of the operatives.

Made An Assignment.

Woonsocket, R. I., April 10.—The Woonsocket bobbin works, manufacturers of bobbins and spools in this city, a copartnership, have made an assignment for the benefit of their creditors to J. T. Cook of this city. No statement is made except that the assets greatly exceed the liabilities. The assignment is caused by complications outside the affairs of the firm and the business will continue without interruption.

Charged With Robbery.

On Tuesday Chief Keller arrested Jacob Aikey in this city on a warrant charging him with stealing a quantity of lard, canned fruit, jellies, a keg of wine and cant hooks from the residence of David Winslow, Eagleville. The robbery was committed last fall while Winslow was absent from home. Aikey was locked up in jail here over night and was taken to Eagleville for a hearing.—L. H. Democrat.

The Harmans Back.

In January 1894, Milton and Mary Harman, of Spring township, were arrested for the inhuman treatment of their son Geo. Harman. At April term of court they plead guilty to the charge, and were each fined $100, confinement in the Western Penitentiary for a year. On May 8th both parents were taken to the Western Penitentiary and on last Saturday they arrived back in Bellefonte. Mrs. Harman was taken suddenly ill, and is lying at the Cummings House unable to be about.

When the Harmans were taken away their children fell upon Spring township for support. What personal property was left by him was taken by the overseer of the poor and sold. Mr. Harman is now attempting to recover from the township the amount of property taken, but will not likely succeed.

Other Counties.

The Tyrone fire patrol is receiving subscriptions for a fund to purchase tarpaulins and other necessary equipment, they having the opportunity to buy a $1,000 outfit for $500.

The stone bridge of the Pennsylvania railroad over the Conemaugh river is to be enlarged.

Hon. C. R. Buckalew, of Bloomsburg, is very ill at his home in that place and there is small chance of his recovery.

Mrs. Caldwell, of Milton, died Monday night, aged 80 years. She was the mother of John Caldwell, cashier of the bank at that place.

Shooting Wild Ducks Unlawful.

According to an act of 1883 it is unlawful to kill wild ducks or any kind of web-footed fowl, except on Mondays, Wednesday and Fridays, and then only from September 1 to January 1. The penalty for violating the act is twenty-five dollars. As there have been a number of hunters killing wild ducks at all seasons of the year, this law against the practice will be shown to many such violators.

A BABY
CONTRADICTS THE DOCTORS.
All Are Happy, Glad, and Well.
[SPECIAL TO OUR LADY READERS.]

The theories of physicians in regard to female complaints suffer a "Waterloo" very frequently, when sensible and thinking women take matters into their own hands.

Women are sometimes compelled to act for themselves, because of the suffering forced upon them by incompetent doctors, who are baffled by very simple complaints, because they are not the right sex to comprehend them.

Lydia E. Pinkham, when she gave to the world her Vegetable Compound, lifted women from the darkness into light. She placed within their reach a guaranty, not only of health, but of delicacy and self-respect.

The following letter is a little story where a "dear little boy" was the "Waterloo."

"I have taken three bottles of your Vegetable Compound, one package of Sanative Wash, one box of Liver Pills; and now I have a dear little babe four weeks old, and I am well. I have to thank you for this.

"I have spent $200.00 for doctors' bills without a cure. For my cure I only spent $5.00.

"I was once a victim of female troubles in their worst form. I have suffered untold agonies every month; had to stay in bed, and have poultices applied, and then could not stand the pain.

"My physician told me if I became pregnant I would die. I had bladder trouble, itching, backache, catarrh of the stomach, hysteria, and heart trouble, fainting spells and leucorrhœa. Can you wonder that I sing the praises of a medicine that has cured me of all these ills?" Mrs. Geo. C. Kirchner, 351 Snediker Ave., Brooklyn, N.Y.

They Were Married.

Wednesday evening the residence of Mr. and Mrs. Emanuel Noll and family, on North Allegheny street, a happy event took place, At 6 o'clock Rev. W. O. Wright, of the First Presbyterian church, of Milesburg, Pa., officiated and pronounced the words uniting in marriage their daughter, Miss Jennie T. Noll, and Mr. Chauncey F. York, of Warriorsmark, Huntingdon county. The bride is one of Bellefonte's most handsome, agreeable and pleasant young daughters, and is well known to many of our people for her many amiable and social qualities, and we can say that she will make a desirable helpmate to him whom she has vowed to cherish and love The groom is the manager and proprietor of the Malena Manufacturing company at Warriorsmark, Pa., a man of steady habits, energetic with largely developed push and vim, and well able to protect her whom he has this day vowed to care for during life, well mated. The presents were numerous, valuable and useful, and a hearty repast was enjoyed after the ceremony. Mr. and Mrs. York will enjoy a honeymoon trip to Washington, D. C., and eastern cities and upon their return will make their home in Warriorsmark in married life. The fervent and ardent wish of the News is that they may live long and prosper, and all their cares be of a diminutive size.

Your Easter Eggs.

There are four ways of boiling eggs, and it is, of course, most essential that the egg should be perfectly fresh.

1st. Put the eggs in boiling water and let them simmer for three minutes if they are small, and half a minute longer if they are large.

2nd. Put the eggs into a stewpan of cold water, and place it on a brisk fire. As soon as the water boils the eggs are sufficiently cooked.

3rd. Place the eggs in a stewpan of boiling water, and withdraw it from the fire; keep the vessel covered, and in six minutes the eggs will be done.

4th. Steam the eggs for four minutes in a potato steamer.

The second way is preferable to the others, as the white is rendered more creamy, and mixes better with the yolk when in contact with the egg spoon.

To poach eggs in balls, put three pints of boiling water into a stewpan; set it on the stove or coals; stir the water with a stick until it runs rapidly around, then, having broken an egg into a cup, taking care not to break the yoke, drop it into the whirling water. Continue to stir it until the egg is cooked. Then take it into a dish with a skimmer and set it over a pot of boiling water. Boil one at a time, until you have enough. These will remain soft for a long time.

"Brack" Powell Arrested.

The following is taken from the Sunday Philadelphia *Record*:

"Detectives Bond and Murray arrested Charles Powell, a colored man, who came to this city from Bellefonte, last evening, in the rear of 618 Lombard street, on the charge of Arson. He is accused of setting fire to the store and warehouse of Jacob Hirsh, in Osceola borough, Clearfield county, on the night of May 2, 1894, with several other colored men who are not known."

This is none other than Bellefonte's famous "Brack Powell" who has been in jail oftener than he has toes on his feet. Brack is a famous coon, and if found guilty of the alleged charge will not annoy his acquaintances in Bellefonte for some time.

Death of Laura Bierly.

Miss Laura Bierly, oldest child and only daughter of Mr. and Mrs. Robert Bierly of Milesburg, died at the home of her parents in that place at one o'clock Thursday, in the 31st year of her age. Her death was caused by consumption. Deceased was well known in Bellefonte where she was esteemed for her many lady-like traits of character and her genial, sunny disposition. She will be sadly missed by all, but most of all by the home left desolate.

The funeral occured on Sunday. Friends will leave the house at one o'clock p. m. and proceed to the Milesburg Presbyterian church where services were held by Rev. W. O. Wright. The remains were brought to Bellefonte for interment in the Union cemetery.

Died at Warren.

About a year ago John A. Whitehill, of Milesburg, who was well advanced in Milesburg, who was well advanced in years was declared insane and was sent to the Warren Asylum. On Wednesday the Commissioners were informed of his death in that institution. A wife and daughter at Milesburg survive him. It is not known whether the remains will be brought home for interment.

Died at Rebersburg.

On Sunday evening Gertrude, a 14 year old daughter of Prof. C. L. Gramley, died at her home in Rebersburg after an extended illness of some weeks. She was so ill several weeks that her father was unable to leave home to look after the schools in the different sections of our county.

John Carper.

The venerable John Carper, of Linden Hall, died on Sunday last aged upwards of 90 years, after an illness of several months. He was one of the most respected citizens of Harris township. We do not have any particulars.

"A HANDFUL OF DIRT MAY CLEAN HOUSE FUL OF SHAME." CLEAN HOUSE WITH
SAPOLIO

About the Income Tax.

The Supreme Court of the United States having decided, by an equally divided court, the validty of the income feature of the new tariff bill, with the exception of taxes on rentals from real estate or on interest received from State or municipal bonds, every citizen must make return under the law on or before the 15th of the present month.

The tax is levied on incomes of every kind received between January 12, 1894, and December 31, 1894, and the amount of the tax is 2 per cent.

Citizens of the United States, resident or non-resident, and resident aliens are subject to the tax on all incomes, and non-resident aliens are taxable only on incomes derived from any source in this country.

All incomes up to the amount of $4,000 are exempt from taxation. The tax must be paid only on income in excess of $4,000.

Incomes of all kinds, including inheritance, gifts, profits, etc., are taxable, excepting those derived from rentals of real estate and interest on State or municipal bonds. Those taxes have been declared unconstitutional.

Where two or more members of one family composed of parents and minor children, have an income of $4,000 a year, but one deduction of $4,000 is allowed

Where corporations pay taxes on their incomes under the law, the stockholders of such corporations are not taxable upon their dividends.

Persons having an income of more than $3,500 a year must make a return of the income to the collector in his proper district, and guardians and trustees must make returns for those whose money they hold in trust.

The returns for this year must be made on or before the 15th of the present month. In future years they must be made before the first Monday in March. The tax is payable on or before July 1.

Persons who fail to make returns to the collector will have their incomes estimated and assessed by the collector who will add 50 per cent to the amount of tax as a penalty, and 5 per cent will be added to all unpaid taxes ten days after the notice and demand.

Salaries of State, county or municipal officers are not subject to income tax.

The decision of the Supreme Court declaring unconstitutional the incomes from rentals and other State or municipal bonds strikes at the very vitals of the income tax policy, as those who are most able to bear the tax entirely escape it.

In view of the facts that the constitutionality of the law was affirmed only by an equally divided court, and that those who should pay most of the income tax escape it by judicial decision, the whole income tax system must become so odious before the people as to insure its repeal by the next Congress.

Presbytery Notes.

The Rev. William Laurie, D. D., in the absence of the chairman, Hon. James A. Reaver, the chairman on a committee to offer resolutions in reference to the death of Rev. George Elliot, of Bellefonte, spoke very feelingly of the noble life of the departed. Hon. J. A. Beaver will offer a memorial on the subject shortly. "A dear good man," said Dr. Laurie, "is gone; three-quarters of his life serving his Master. We feel that we have one friend less on earth."

The Bellefonte society reports that it has a plan by which, with the aid of other members of the church, it pays $800 annually for the support of Dr. Peoples in the Laos country. The society raised $163 of this amount.

The extract from the Jacksonville "Times-Union," printed in "The Press" Monday and describing the operation of the Florida election law, will attract attention for its frankness, coming as it did from an uncompromising Democratic newspaper. Its importance rests not in the fact that it relates anything new, but in the confirmation it gives of the charges of Republican newspapers as to election methods in the South. The Democratic organs denounced these charges as false, and the mugwump organs sneered at them as "bloodyshirt" arguments. These Northern Mugwumps and Democrats knew that they were conspiring with ballot box thieves and were enjoying a part of the plunder, and they naturally tried to defend their "partners," as Rogue Riderhood would have called them. They probably never imagined that the Southern newspapers would some day turn State's evidence and overwhelm their Northern defenders with shame and confusion.

Senator Penrose's bill to define and punish prize-fighting is apparently designed to legalize such exhibitions as were given at the Winter Circus building. There is no call for such a bill from the community. Any amendment to the existing statutes should be in the direction of making the meshes of the law finer, and not coarser. Sparring exhibitions, where an admission fee is charged to spectators, are sources of evil to the public morals. They attract the idle, the vicious and the disorderly, and have a most pernicious effect upon the youth of the land. Let us have no step backward in this particular.

—Itch on human, mange of horses, dog and all stock, cured in 30 minutes by Woolford's Sanitary Lotion. This never fails. Sold by F. Potts Green, druggist, Bellefonte, Pa. v26-5-1y

A YOUNG GIRL'S FORTUNE.
AN INTERESTING SKETCH.

Nothing appeals so strongly to a mother's affection as her daughter just budding into womanhood. Following is an instance: "Our daughter, Blanche, now 15 years of age, had been terribly afflicted with nervousness, and had lost the entire use of her right arm. She was in such a condition that we had to keep her from school and abandon her music lessons. In fact, we feared St. Vitus dance, and are positive but for an invaluable remedy she would have had that terrible affliction. We had employed physicians, but she received no benefit from them. The first of last August she weighed but 75 pounds, and although she has taken only three bottles of Nervine she now weighs 106 pounds; her nervousness and symptoms of St. Vitus dance are entirely gone, she attends school regularly, and studies with comfort and ease. She has recovered complete use of her arm, her appetite is splendid, and no money could procure for our daughter the health Dr. Miles' Nervine has brought her.

When my brother recommended the remedy I had no faith in patent medicines, and would not listen to him, but as a last resort he sent us a bottle, we began giving it to Blanche, and the effect was almost immediate."—Mrs. R. R. Bullock, Brighton, N. Y.

Dr. Miles' Restorative Nervine is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It is positively free from opiates or dangerous drugs.

AN IMPORTANT CLUB OFFER
SCRIBNER'S MAGAZINE
-AND-
The Bellefonte Republican
For $3.75.

If purchased separately these periodicals would cost $4.50.

IT IS THE PLAN OF SCRIBNER'S to give its readers next year a history of the past 25 years in the United States. (1894-95.) These years have been unparralleled in the history of the world for national development and material progress. The narrative will be written in a graphic and picturesque style by President Andrews, of Brown University, and capable artists will illustrate it.

ROBERT GRANT whose "Reflections of a Married Man" will long be remembered, has written a series of articles on "The Art of Loving," in which he sets himself to solve, as far as such problems can be solved, questions which beset every well-to-do family: The Income—The dwelling—Household Expenses—Education of Children—Married and Single Life—The Summer Problem, etc., etc. Beautifully illustrated.

GEORGE MEREDITH, whom more than one good authority has pronounced the greatest of living novelists, has written a strong serial, "The Amazing Marriage" to begin in January.

D. HOWELLS, will contribute a novel entitled "The Story of a Play."

IN THE LAND OF DON QUIXOTE will be a series of three sketches illustrated by Daniel Vierge's wonderful drawings.

SINGLE ARTICLES in great variety have been arranged for and the illustrations will be eleborate.

Scribner's For 1895 Will Be Better Than Ever.

If you desire only SCRIBNER'S MAGAZINE remit $3.00 to the Publishers:

WEEKLY FINAN CIAL REVIEW.

From our Regular Correspondent.

NEW YORK, April 13, 1895.

"Quiet but steady" fairly represents the condition of business at the Stock Exchange for the past week. We have now had two weeks of partial reaction from the revival of speculative interest which was so conspicuous during the latter half of March. The abatement of that special activity does not appear to have any special or discouraging significance. The movement was confined to a limited group of stocks which circumstances had simultaneously favored; and there is evidence that the rise was sound, so far as it went, in the fact that the advance in most of those securities is still maintained, notwithstanding that the speculative interest in them has subsided, and that the realizing has been considerable. The spurt in these specialties has thus left behind it no discouraging symptons, but rather evidence that the market is becoming more sensitive to improvements in the intrinsic condition of securities and is gaining in staying qualities.

So far as respects the securities of the leading railroads, while interest is increasing in those that are in process of financial reconstruction, yet the mass of Western roads are dealt in sparingly. As the crop movements are, at this season of the year, at their lowest ebb the earnings excite little interest and show no stimulating gains on last year. The Vanderbilt properties, however, have given a good tone in the market, their backing have come from both home and abroad; and the London buying has taken out the stiffness from the foreign exchange market, which has materially helped to strengthen confidence. It is as yet too early to expect any show of better earnings in the roads at large growing out of the improving condition of business of the railroads, and it is reasonable to expect that, with the prevailing increase in general confidence, when that stage is reached there will be a general recovery in values. The expectation of that phase is imparting confidence to the market, but is not an element strong enough to induce any active buying. Each week brings us nearer to the time when crop forecasts can be made with some definiteness, and should the prospects remain as encouraging as it now is, this must become a "bull" element of some importance.

In the meantime all the commercial symptoms continue to be encouraging. The upward tendency in the prices of merchandise becomes more marked, which means not only a sustained increase in the demand for goods, but also a growth of confidence among the trading community. We have witnessed this week a pronounced advance in petroleum, cotton and beef. Coal has also been marked up and also silver, thus showing the tendency of products to seek a higher valuation. It is an evidence that the country is waking up from its long existing condition of pessimism, and that the brighter side is becoming visible to those engaged in business undertakings. The outlook for the crops generally has materially improved of late. What this conutry particularly wants this year, however, is a good yield of corn and not excessive ones in either wheat or cotton. The two latter crops can be too large to be of benefit, while the former, cannot be, as it is a product that never deteriorates with age, and makes the most solid and health food for both man and beast. In it we have little competition with other nations, and no fear of any. It is therefore entitled to be considered the King of crops in this country, and has dethroned cotton, which used to be so considered.

I think it unfortunate that the portion of the income tax law which was sustained should have been by a tie vote, as it will cause increased dissatisfaction on the part of the taxpayers. It leaves a graye doubt in the minds of most people as to the constitutionality of the law. If half of the Supreme Bench judges share in that doubt why should it not be general with the tax payers? I, therefore, doubt whether any one will be willing to pay a large amount of money as an income tax under the circumstances, excepting it is done under protest to admit of it being again recovered as a result of a future reversed decision. This attitude would not have been taken by anybody if the decision had been given by a good-sized majority vote. In that case people would have paid the tax ungrudgingly, but now in paying it they certainly will feel otherwise. It is also unfortunate that a number of the men with the largest incomes in the country through inheritance of real estate, men who have never done a day's work, are exempt from paying any tax on their great incomes, while men who make their incomes by their own daily labor efforts, with great attending risk and anxiety, are compelled to pay a tax on the incomes so derived. It makes a most unfortunate un-American distinction, and one that will make the income tax a most distasteful one to all American people, with the exception of the large land owners. The income tax law, as it now stands, is in about this shape: If I had a farm and rented it, giving me an income of $10,000, I should not have to pay any tax on that income; but my tenant would have to pay a tax on his income derived therefrom. On the basis of justice, the reverse should be the case.

HENRY CLEWS.

—John McGinley is considering a proposition from Mr. S. H. Williams to take and run the University Inn at State College. John would make a good landlord, without doubt.

Only Worth Repealing.

While there are all shades and stripes of opinion of the legal points of the income tax question, as also of the public aspects of the definition of constitutional principles, by the inability of the Supreme Court to agree, there is room for only one opinion of the practical results of the income tax enactment. That is, that it is chief among the monumental fiascoes of the late Congress.

It is a failure in a double sense. The expected $30,000,000 to $43,000,000 of revenue has dwindled to an estimated $10,000,000. With the fact that the incomes left to be taxed are those most difficult to obtain evidence concerning, it is very doubtful whether that $10,000,000 can be realized. But the law is an even greater fizzle, in its purpose of levying the tax where it is easiest to pay it. The theory of the law was that the possessors of large incomes are those who can pay taxes and feel them the least. The class most clearly in view were those possessing large incomes from rents and from bonded investment. These by the fortuities of the decision are exempted, while business and professional men, whose large incomes are the result of their enterprise or ability, must pay the tax—if the Government officials can find out what their incomes are.

A law so completely mutilated is not worth keeping on the statute books long enough to let the Supreme Court pick it to pieces any further. One of the earliest steps of legislation should be to repeal what is left of it to repeal, and to supply its place with some such simple and adequate measure of revenue as an increase of 50 cents to $1 per barrel in the tax on beer.

Killed Her Son.

Wrentham, Mass., April 11.—The wife of John Hobbley killed her 7-year-old boy this morning. Mr. Hobbley is obliged to start from home at an early hour. This morning he left his house at 4 o'clock. Shortly after 6 his wife called at his place of business. Looking him squarely in the face, the woman said: "I have killed our son." Then she went rapidly on and described the deed. The murder was of the most brutal description.

Shortly after her husband had gone to work Mrs. Hobbley arose, leaving the boy in bed. She went into the yard and secured a large stone. Then, returning to the side of her sleeping boy, she crushed his head with repeated blows. Mrs. Hobbley gives as the reason for the crime the fact that the boy had to work too hard and would be happier dead.

She is about 40 years of age and has acted strangely lately. The woman has not yet been placed under arrest.

The Last of the Harmans.

Wednesday morning Bellefonte saw the last of cruel Milton Harman and his family. The poor overseers of Spring township bought a ticket for the whole "kit" of them and they departed, bag and baggage, on an early train for Mt. Carmel.

The wretch and his wife returned from the penitentiary on last Friday and after boarding at Haag's hotel at the expense of Spring township until Wednesday, he promised, if the authorities would buy him a ticket to Mt. Carmel he would go away and never bother this county again.

He has gone, but it is a question if he doesn't become a pauper down there and then involve Spring township for his support. It would be well for the poor authorities to keep a watch over him for a while.

An Absurd Measure.

A bill pending at Harrisburg provides for the granting of permanent school teacher's certificates to the graduates of high schools, academies, seminaries and colleges. It is a measure that can profitably be summarily defeated. It is understood to have its origin with those persons who are opposed to the normal schools, and is intended to confer upon all academies and high schools the fullest benefit to be derived from the normal school course. It is not necessary at this time to discuss the merits or demerits of the normal schools. It is enough to say that fair fighting would not prompt the opposition to make a meaningless toy of a teacher's certificate. An honest belief that normal school training should not be preferred for teachers would be better represented by a bill to deprive normal schools of the power to grant life certificates.

Death of William Tate.

William Tate died at his home, near Hunter's Park, on Tuesday night, after a long illness with diseases consequent upon old age. He was 67 years old and was one of Buffalo Run's best known old farmers. His passing away leaves four orphan children who are: Potter, Wesley, a miller in Clearfield county; Andrew and Mrs. Benjamin Bodle, of Buffalo Run. Deceased was buried at Meyer's cemetery Friday at 10 o'clock. He was universally respected and died in the Methodist faith.

Agriculture's Awaking.

The red breasts are here; agriculture's long rest is over; the cider barrels are empty; the last hunting tale, staled by countless repetition, has been told; the fields, dormant under the winter's snow, are again awake with life; keen are the sleek horses in the plow and eager is the restless farmer to press on the work. No part of the rustic drama is so brisk and vigorous as its opening in the spring. Every actor on the agricultural stage begins his task with the advantage of a whole winter's repose and recuperation.

HOUNDED BY THE MAFIA.

The Assassins Cause an Italian to Commit Suicide at Scottdale.

Scottdale, April 12.—Sidro Orfino, an Italian laborer, committed suicide yesterday by throwing himself in front of a freight train. When he lived in New Orleans several years ago he incurred the enmity of the Mafia, and in a fight, stabbed a member of the society of assassins. Then he wandered north, but they followed him everywhere, and he returned to his old home in Italy, where his wife and family lived. He had been there but a short time before his enemies discovered him and he sailed for his country again.

His landing in New York was noted by the Mafia there and he sought safety in the coal region of western Pennsylvania. About a month ago he obtained employment upon the construction of a sewer here. He told the story of his persecution to some of his fellow workmen, who were Americans, and said he would never run away from the Mafia again. They were incredulous and questioned some Italians upon the subject. There doing so was fatal to Orfino. In a few days he received a Mafia letter warning him to leave the coke regions, or suffer instant death. He preferred to take his own life.

Death of Mrs. Schenck.

On Tuesday, April 9th, Mrs. Mary Ann Schenck died at her home in Howard township. She was aged 75 years, 1 month and 8 days, and has been ill for the past two months.

Mrs. Schenck was a daughter of Lenard Foringer, who died when she was quite small. She made her home with Rudolph Pletcher until married. She was a consistent member of the Mennonite church for the past 40 years. Deceased leaves to mourn their loss one sister, Mrs. Susan Young, who is at present writing very ill also two sons and two daughters, as follows: Susana B. wife of M. P. Holter; Mary Ellen, wife of Irvin Lucas; John F. and Austin S. The funeral occurred on Thursday, April 11 at 10 a. m. Services were conducted by Rev. Sechrist who took for his text the 14th verse of 4th chapter 1st Thessalonians. "For if we believe that Jesus died and rose again, even so them also which sleep in Jesus will God bring with Him." After which the congregation sang her favorite song, "Home sweet Home," and hymn No. 214 of the Mennonite hymnal. The following were the pall bearers: John B. Holter, J. S. Holter; J. Z. Loder, C. H. Pletcher. Interment was in the Schenck cemetery.

One Criminal Re-Captured.

Newburgh, N. Y., April 12.—John Quigley, the Astoria criminal who, with Oliver Curtis Perry and three others escaped from Matteawan asylum Wednesday night, was recaptured shortly after noon to-day at New Hamburg, eight miles north of Fishkill Landing. He was in an empty coal car.

Quigley complains of nausea and weakness, evidently not having eaten anything since the escape. He was clad only in a pair of blue trousers, an old shirt of the asylum regulation uniform, and was without shoes or stockings. He could not, or would not, give any account of the other fugitives.

A Noted Man Dead.

Pottsville, April 12.—George M. Bretz, photographer, artist, inventor and lecturer, died at his home here at 3 o'clock this morning after an illness of about two months. He was 53 years old. He was for years a scenic photographer. He was the inventor of a camera that took the largest negative ever photographed in the world, and his views of Niagara Falls and Wilkesbarre were very fine. He was a prominent Mason and a member of the Grand Army of the Republic.

Found Dead in Bed.

Jacob Long, of Howard, better known as "Forgeman Jake," was found dead in bed by his wife this morning. Mr. Long had worked all day Thursday as usual retiring about 9 o'clock. This morning when Mrs. Long awoke she attempted to wake her husband, but found to her consternation that he was dead.

Deceased was aged 67 years and leaves a wife and six sisters to mourn their loss.

$1800.00 GIVEN AWAY TO INVENTORS.

$150.00 every month given away to any one who applies through us for the most meritorious patent during the month preceding.

We secure the best patents for our clients, and the object of this offer is to encourage inventors to keep track of their bright ideas. At the same time we wish to impress upon the public the fact that

IT'S THE SIMPLE, TRIVIAL INVENTIONS THAT YIELD FORTUNES,

such as the "car-window" which can be easily slid up and down without breaking the passenger's back, "sauce-pan," "collar-button," "nut-lock," "bottle-stopper," and a thousand other little things that most any one can find a way of improving; and these simple inventions are the ones that bring largest returns to the author. Try to think of something to invent.

IT IS NOT SO HARD AS IT SEEMS.

Patents taken out through us receive special notice in the "National Recorder," published at Washington, D. C., which is the best newspaper published in America in the interests of inventors. We furnish a year's subscription to this journal, free of cost, to all our clients. We also advertise, free of cost, the invention each month which wins our $150 prize, and hundreds of thousands of copies of the "National Recorder," containing a sketch of the winner, and a description of his invention, will be scattered throughout the United States among capitalists and manufacturers, thus bringing to their attention the merits of the invention.

All communications regarded strictly confidential. Address

Children Cry for Pitcher's Castoria.

Terry's Silvereen.

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware.

Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want every one to have a chance to compare silvereen with silver, so for the next sixty days we are going to give away one half dozen Silver Tea Spoons *Free*, to every person who will send for one of our Silvereen sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Sivereen goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons. Send at once as this offer is for 60 days only.

Price of Silvereen set $2.00.

MERCURIAL POISON

Is the result of the usual treatment of blood disorders. The system is filled with Mercury and Potash remedies—more to be dreaded than the disease—and in a short while is in a far worse condition than before. The most common result is

RHEUMATISM

for which S. S. S. is the most reliable cure. A few bottles will afford relief where all else has failed.

I suffered from a severe attack of Mercurial Rheumatism, my arms and legs being swollen to more than twice their natural size, causing the most excruciating pains. I spent hundreds of dollars without relief, but after taking a few bottles of S.S.S. I improved rapidly, and am now a well man, completely cured. I can heartily recommend your wonderful medicine to anyone afflicted with this painful disease.

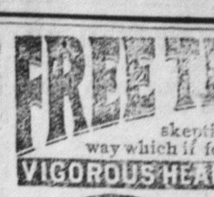
FREE TRIALS convince the skeptic and point the way which if followed leads to VIGOROUS HEALTH TO MEN



Prof. HARRIS' SOLUBLE MEDICATED **Pastille**

Has been put up in a proprietary form since 1878, and has been used for years prior to that time in private practice. It is no untried nostrum, of doubtful reputation, but a genuine specific for a very prevalent disease. Thousands of men, of all ages, have at some time in life brought on nervous debility and exhaustion, with organic weakness, by over brain work, excesses, too frequent indulgence or indiscretion and vicious habits, and it is to these that we offer a remedy that will, by its direct action upon the seat of the disease, stop the drain and restore the patient to vigorous health and strength.

Our method of introducing Prof. Harris' Pastille treatment is one which commends itself to all sensible persons—for the reason that we supply it upon their judgment of its value. Weak of our patrons nothing in the way of expense beyond a postal card and a two cent postage stamp. The postal card to be used in sending us their full address and the postage stamp for the letter returning the statement of their case for which we supply them with a question blank, to be filled out, and an envelope addressed to ourselves for use in returning it when filled.

FREE TRIAL PACKAGE. When we receive the statement on blank we prepare eight days' treatment and forward it, by mail and prepay postage thereon—and along with the eight days' treatment we send full directions for using. The treatment in no way interferes with a person's attention to business, and causes no pain or inconvenience in any way.

We are so positive that it will give perfect satisfaction that we leave the matter of sending orders entirely with those using the free trial treatment. Having satisfied those sending for trial packages of our ability to benefit their sexual condition we feel that they are more largely interested than ourselves in continuing the use of the Pastilles. Even then we do not attempt to rob them by demanding high prices. On the contrary, we make the prices as low as possible, and the same to all. They are as follows: $3 for one month; $5 for two months; $7 for three months.

These prices secure the delivery of the Pastilles by mail. If desired by express we leave the patient to pay the charges. For over ten years we have operated our business upon this plan with satisfactory results.

We ask all persons needing treatment for any of the secret ills which come to mankind through a violation of nature's laws to send us their address on postal card or by letter and allow us to convince them that PROF. HARRIS' SOLUBLE MEDICATED PASTILLES have merit and are what they need.

All communications confidential and should be addressed to

WASHINGTON LETTER.

Washington, April, 15 1895.

From our Regular Correspondent.)

The pressure on the administration, to do something to head off the silver stampede which seems to have siezed the democratic party, is daily growing stronger. Mr. Cleveland is perfectly willing to do anything to prevent the capture of the democratic party by the silver men, but up to this time he has been unable to decide what he ought to do. At first he was disposed to try to stop the movement by going to Chicago and making an anti-silver speech, which should rally the Cleveland democrats around the sirgle gold standard; and the arrangements were made to have him invited to do so by a committee of alleged non-partisan business men of Chicago; but later he became doubtful as to that plan, and has given considerable consideration to a project suggested by a member of the Cabinet, for the writing of a series of letters by himself and all the members of the Cabinet, to be made public by those who received them and to be used as weapons against the silver phalanx of the democratic party. Other plans have also been considered, but nothing has yet been definitely settled upon.

Meanwhile, Senator Roach, of North Dakota, who is a silver democrat, fires this broadside right under Mr. Cleveland's nose, so to speak: "I am glad to see the Illinois State central committee take the iniative in sounding the democracy of that State on the silver question. We have got to meet the issue of silver in the next national convention, and we might as well hear from the various States now as not. The Illinois scheme is a good one, and I hope to see other States fall in to line and adopt the same plan." That is treason against Mr. Cleveland on the part of Mr. Roach, for he must have known when he made those remarks that the administration was bitterly opposed to the Illinois scheme, and that Hon. William R. Morrison ("Horizontal Bill,") is now in that State, at the request of Mr. Cleveland, trying to lay plans to prevent the convention declaring for free coinage.

Secretary Hoke Smith likes Washington so well that he wants to step from the Cabinet to the U. S. Senate on March 4, 1897, and he is now engaged in pulling the wires which he thinks will accomplish that purpose. One of the principal drawbacks to the accomplishment of Secretary Smith's ambition is that Senator Gordon has shown no willingness to retire. On the contrary, he is credited with desiring to succeed himself, if the democrats can retain control of the Georgia legislature. An attempt was made to make a deal for the election of Gordon to be governor and Smith to the Senate, but Gordon refused to enter it. Ex-Speaker Crisp is also willing to go to the Senate.

Secretary Morton's serious announcement of his intention to use the machinery of the Department of Agriculture to make an investigation in order to ascertain if there is a beef trust, which is responsible for the recent sudden and continuing rise in the price of beef, is enough to bring a smile to the face of the most solemn cow. If Mr. Morton was honest in making that announcement his ignorance is greatly to be deplored, as it is a fact well known to thousands that there is a beef trust, composed of the big meat packers, which has for some time been slowly but surely forcing the local butchers in all towns of considerable size out of business, in order that the trust could dictate prices without fear of local opposition. That time has apparently come, and the trust is putting on the screws There is an anti-trust law, which might be used to annoy the beef trust, even if nothing more could be done under its provisions, if Attorney General Olney so willed. But the administration is apparently satisfied to let the case rest on Secretary Morton's promise to investigate. Meanwhile, the people can choose between paying the prices demanded by the trust or stopping their beef supply.

To-day is the last day upon which returns can be made without penalty by those who are liable for the judicially masculated income tax, and orders have been sent out that all those who fail are to be immediately proceeded against by the collectors of internal revenue, but at one time the Cabinet had under consideration the advisability of suspending the collection of the tax until the Supreme Court had passed upon its constitutionality with a full bench, and it is said that it would have been suspended had not Secretary Carlisle insisted upon the necessity of getting as much money as possible out of the tax, even if some of it should have to be paid back under a later decision of the Supreme Court. It is regarded as certain that the case will in the near future be regarded and a decision reached by a full bench.

There is a great relief in administration circles over the unofficial statement that Nicaragua had reached a satisfactory settlement with England, and hopes that it will soon be officially confirmed. There was dread that Nicaragua might defy England and call on this country to live up to the Monroe doctrine. That, as ex-Congressman Everette would say, would have deposited somebody in a cavity.

Disapproves the System.

Dr. N. C. Shaeffer, superintendent of public instruction in this state is making a determined effort to abolish the system used in some districts whereby the salaries of teachers are fixed by the mark which the county superintendent gives them when he visits the schools of these teachers. His attention has been called to this feature on several occasions, and in reply to a letter which a Lancaster county director wrote to Dr. Schaeffer, he said:

"The monthly wages to be paid to teachers should be specially determined and agreed upon by the directors when the teachers are employed. The amount to be paid should be fixed by the board without regard to any future contingency or condition dependent upon the report of the superintendent. The directors are authorized and required by law to fix the amount of the teachers' salaries, and should not be asked or permitted to assume the responsibility which rests exclusively upon the directors themselves. When teachers are employed let their monthly wages be fixed by the directors as the law requires, without imposing upon the teachers any limitations or conditions which the law does not authorize and which in any event are of doubtful validity.

"If teachers neglect their duties in the school room or prove to be incompetent the county superintendent may revoke their certificates, or they may be dismissed by the board for legal cause, but the law now here authorizes the directors to delegate to the superintendent or any other official the powers and duties which develop exclusively upon the board themselves."

Nicaragua's Diplomacy.

Nicaragua has a past master in the art of diplomacy and there is not much danger of his country getting into hostilities while he is around. At the last moment a reply is sent to England's ultimatum stating that one point was conceded before demand was made, conceding another point and deftly putting the first and most important demand aside to be included in the arbitration which comprised the conceded demand.

England can hardly avoid submitting its first demand for damages to the arbitration it has proposed for other damages though it may feel a little piqued at the superior diplomacy of a little American republic like Nicaragua. The way may be regarded as paved for a peaceful and satisfactory settlement without the further intervention of the Monroe doctrine.

For Cheaper Beef.

Secretary Morton's order admitting Mexican cattle is timely in view of the great advance in the price of meat. While it is not probable enough cattle will come over the frontier to break prices much, the order may have the effect of preventing a further advance.

Meat is an important article of food for the workingman, and it is proper to take any means at hand to prevent the beef combine from putting a prohibitory price upon it. The Mexican ranches which will profit by the order are chiefly owned by Americans who invested over the border before the heavy duties were imposed, so most of the money will stay at home after all.

THE Massachusetts House of Representatives has defeated the bill permitting towns and cities in that State to regulate the liquor traffic according to the Norwegian system, and consequently there will be no trial of this method in that State for a year, at least. The vote stood 128 against to 75 in favor. This will be discouraging to the friends of the Norwegian system, as a bill to establish it passed the Massachusetts House last year, but was defeated in the Senate. The bill was a mild one providing that only those cities and towns that had voted for license or two or three consecutive years could adopt the system after a majority had voted for it when submitted to popular vote. Prohibition towns were not authorized to put it into practice. It was hoped that the campaign of education carried on for a year would result in the passage of the bill by the present Legislature, but it seems that further popular enightenment is necessary. Meanwhile South Carolina is the only neighborhood in this country where Government control of the liquor traffic can be studied.

Prices of Wall Paper at S. H. Williams'

Brown Backs—4, 5 and 6 ts. per piece
White Backs—6, 8 and 10 cts. per piece.
Golds, Glimmers, and Embossed Golds 12 to 50 cts. per piece.

School Appropriation.

The Harrisburg Patriot Tuesday morning said: The farmers will fight the proposed reduction of $1,000.000 in the school appropriation for the next two years They are much exercised over the action of the conference at the executive mansion Thursday night and are preparing to flood the legislature with memorials protesting against the proposition. The legislative committee of the state grange will meet here during the week to take this subject into consideration.

There is no doubt as to the action of the committee. It will come out against diverting the school funds to other purposes than that of maintaining the public schools at their highest standard. Colonel R. H. Thomas, of Mechanicsburg, ex-secretary of the state grange, a member of the legislative committee and a personal and political friend of Governor Hastings, says the governor is not favorable to the proposed reduction. But this is denied by General Hastings' confidential advisers.

A careful canvass of the rural members of the house at the capitol last evening showed that forty are opposed to any cut in the school appropriation and will antagonize it with all their power. Among this number are Walter T. Merrick, the legal oracle of the farmers; Representative Lawrence and "Farmer" Moore, chairman of the agricultural committee and leader of the grangers. The grangers and farmers' alliance claim to have a combined membership of seventy in the house. All these are expected to resist the proposed cut.

An Ex-Senator Ill.

Des Moines, Ia., April 16.—Ex-United States Senator J. F. Wilson is suffering from paralysis of the brain at his home in Fairfield, Ia., and is not expected to live through the night. Ex-Senator Wilson is 67 years old. He was elected to congress in 1861 and was three times re-elected, retiring in 1869. He was out of public life until 1882, when he was elected to the United States States senate. He was re-elected in 1888 and retired March 3, 1895, being succeeded by J. H. Gear.

Inquiring into the death of Mamie Williams.

San Francisco, April 16.—The coroner's Inquiry into the death of Mamie Williams, of whose murder Theodore Durant is accused, was commenced this morning. Durant was present and showed the effects of the great mental strain which he has been under, but manifested complete indifference to the proceedings. The streets in the vicinity were thronged with people.

Condition of Crops.

Washington, April 16.—Special telegraphic reports to the weather bureau give following account of crop conditions in Pennsylvania: Conditions generally favorable for spring work and agricultural interests; season very backward; plowing and oats seeding well advanced in southeastern counties, and some clover, potatoes and tobacco seeded; grain, grass and fruit buds in healthy condition.

THE alleged discovery of a cure for consumption and cancer should be received without too much hope on the part of sufferers and their friends. There is no question that the bacteriological labratory is revolutionizing the methods of rational medicine, but those who at first made great claims for Koch's tuberculin later on were forced to admit its chief value was its importance as a diagnostic agent. As the study and isolation of disease germs proceeds there is no question that the number of antitoxin preparations will be multiplied and disease fought on new principles. The discovery of Dr. Waldstein does not, however, fall so much in the line of the antitoxin preparation as it does in the direction of strengthening the blood and purifying it. As is well known, the corpuscles in the blood under normal conditions resist the action of disease germs, of bacilli, which are ever communicated to the human system and under favorable conditions cause disease. Dr. Waldstein goes to the root of all diseases and stimulates the corpuscles to resist the germs. There is, of course, in this discovery much to encourage afflicted humanity, but it must be taken with certain limitations, and one is that even under the most perfect condition the human being is mortal.

SAN FRANCISCO adds to the chapter of crime for early April, which seems to be unusually full, a most revolting case of double murder, which is surrounded by unusual conditions in that the young man suspected of the black deed has hitherto enjoyed a spotless reputation. There is much about the case which suggests that he may fall within the classification of Dr. Max Nordau's degenerates. If this should prove to be the plea it may cheat the gallows of a victim who on other grounds seems to be a depraved wretch indeed, whose punishment by death would be in the line of public policy.

The Chairman of the State Committee of the People's party of Alabama, while expressing general sympathy with the new silver party movement, is not inclined to merge his organization in the new silver party. In a characteristic proclamation issued to his followers, yesterday, he cautions them not to abandon the Populist cause, whose platform contains a sufficiently strong declaration for free silver. He invites the free silverites of the old parties to come out from them and join the Populists if they are sincere in the advocacy of free silver coinage at 16 to 1.

COURT PROCLAMATION—Whereas, the Honorable J. G. Love, President Judge of the Court of Common Pleas of the 49th Judicial District, consisting of the counties of Centre and Huntingdon, and the Honorable Benjamin Rich and Honorable Corlis Faulkner, Associate Judges in Centre county, having issued their precept, bearing date the 25th day of March to me directed, for holding a Court of Oyer and Terminer and General Jail Delivery and Quarter Sessions of the Peace in Bellefonte, for the county of Centre and to commence on the 4th Monday of April being the 22nd day of April, 1895, and to continue two weeks, notice is hereby given to the coroner, justices of the peace, aldermen and constables of said county of Centre, that they be then and there in their proper persons, at 10 o'clock in the forenoon of the 22nd, with their records, inquisitions, examinations, and their own remembrances to do those things which to their office appertains to be done, and those who are bound in recognizances to prosecute against the prisoners that are or shall be in the jail of Centre county, be thes and there to prosecute against them as shall be just.

Given under my hand, at Bellefonte, the 25th day of March in the year of our Lord, 1895, and the one hundred and eighteenth year of the independence of the United States.

JOHN P. CONDO, Sheriff.

WHY do people complain of hard times, when any woman or man can make from $5 to $10 a day easily. All have heard of the wonderful success of the Climax Dish Washer; yet many are apt to think they can't make money selling it; but anyone can make money, because every family wants one. One agent has made $478.36 in the last three months, after paying all expenses and attending to regular business besides. You don't have to canvass; as soon as people know you have it for sale they send for a Dish Washer. Address the Climax Mfg. Co., 45 Starr Ave., Columbus, Ohio, for particulars. d4-10-6m

For Sale Cheap.

Will sell for *Cash, very cheap*, house, stable and lot No. 57, Willow Bank St., and adjoining lot, No. 58. For information apply to C. L. GATES, "Republican" office, Bellefonte, Pa. m.25-tf.

Proprietor.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
UNITED HOSPITAL AND DISPENSARY, Boston, Mass.
ALLEN C. SMITH, Pres.,

The Centaur Company, 77 Murray Street, New York City.

GREAT SPRING OPENING
—OF—

Hartford Bicycles

$80
$60

Elegant in Design

Superior in Workmanship

Strong and Easy Running

Hartfords are the sort of bicycle most makers charge $100 for.

Columbias are far superior to so-called "specials," for which $125 or even $150 is asked.

It is well to be posted upon the bicycle price situation.

The great Columbia plant is working for the rider's benefit, as usual.

Columbias-$100

New York, Buffalo, Providence.

The Columbia Catalogue, a work of highest art, telling of and picturing clearly all the new Columbias and Hartfords, is free from any Columbia Agent, or is mailed for two 2-cent stamps.

Daniel Irwin & Son,
Agent for Columbia and Hartford Bicycles,
Bellefonte, Pa.

ANOTHER VERDICT FOR DR KENNEDY.

A Philadelphian Cured of Gravel.

(Philadelphia, Pa., Item)

Since the investigations of the claims made for Dr. Kennedy's Favorite Remedy by the press, they have received letters from every state in the Union, and find the remedy fails in few cases.

The opinion of the average physician has been that kidney and urinary troubles could be cured only by long and persistent treatment. Dr. David Kennedy's Favorite Remedy acts quickly, curing obstinate cases in a very short time.

One of our best known citizens, Mr. John J. Neill, of No. 2437 North Eighth street, was a sufferer from gravel, in speaking of his case said: "I had a very bad attack of gravel, and Dr. David Kennedy's Favorite Remedy, taken about one month completely cured me. I cannot say too much in its favor."

Favorite Remedy is prescribed with unfailing success for all diseases brought about by an excess of uric acid in the blood. In rheumatism, dyspepsia, and nerve troubles, it has made many cures that were considered beyond the aid of medicine. Dr. David Kennedy's Favorite Remedy can be obtained of all druggists at one dollar a bottle, or six bottles for five dollars.

Independent Order of Heptasophs.

Capt. Robert Johnson, district deputy Supreme Archon, of the Independent Order of Heptasophs, and Mr. G. A. Patton, of Altoona, spent two days in Bellefonte the latter part of last week in the interest of that Order. Bellefonte Conclave had a membership of thirty-seven and the work of the above gentlemen resulted in adding twenty-four new applications, which will a membership of sixty-one. But the gentlemen are still not satisfied to rest content with this number and they will return again this week when they anticipate being able to run the list of membership up to almost one hundred.

The Order of Heptasophs is one of protection and sociability. It is an insurance organization and the amount now carried by members of the Bellefonte Conclave aggregates about sixty thousand dollars. If the representations of the officers are correct, it is cheaper than any kind of old-line insurance, and just as safe. Another good featuee is the sociable character of the organization, which includes a banquet once a year.

If any man with an income between $3500 and $4000 should fail to report to the Collector of Internal Revenue he need not worry about the penalty to be imposed. He is required to make report, but the penalty for neglect provided in the act does not reach his case. Fifty per cent. is to be added to the amount of tax ascertained to be due. But 50 per cent. added to nothing makes nothing, and that is all that the individuals with incomes between $3500 and $4000 can be made to pay if they should neglect to make returns.

Cutting Off Appropriations.

In the search for something to economize on the Legislature has found the National Guard. It is proposed to shut off the annual encampments of the soldier boys for two years by failing to appropriate any money for pay or expenses. The first subject for economy was the public schools. The school appropriation is to be reduced $1,000,000 for the two years. As this did not leave enough funds for other requirements the National Guard was brought in as the next sufferer.

What institution will have its appropriation cut off next in order to supply funds for the expensive new departments, the increased salaries of old departments and the quasi-private charitable institutions is a matter of likely conjecture. There may be no others. Certain it is the school and National Guard appropriations will not be cut without a vigorous protest being entered. The schools have already begun to declare themselves against the cut and the guardsmen may be expected to follow more vigorously even.

The Appropriations Committee is not to blame. It did not create the demand for appropriations, though it is its painful duty to devise some way to make the revenues meet the demand. This it is doing on a basis of decreased revenues and increased applications for it. It may be remarked in passing that some of the measures already passed this session must be far more expensive than was admitted while they were pending.

The Supreme Court is asked to grant a reargument in the income tax case, and for excellent reasons. The decision, such as it is, has settled nothing—rather has unsettled everything. New suits contesting the right to collect the tax has been inaugurated in various cities. Double confussion and litigation must reign until the exact status of this act of Congress is established. The Supreme Court would, we are confident, neither hesitate nor delay granting a reargument were it certain that the composition of the court would be changed at the time fixed for the reargument. The eight active Judges have reached a conclusion and are equally divided, so the decision of the court rests with the invalid Justice Jackson or his successor. The doubts about the fate of the income tax are intensified because they are involved in a cloud of uncertainty as to the condition of Justice Jackson's health and in a good deal of haze as to his natural leadings on the income tax proposition.

Relief in Six Hours.

Distressing Kidney and Bladder diseases relieved in six hours by the "NEW GREAT SOUTH AMERICAN KIDNEY CURE." This new remedy is a great surprise on account of its exceedingly promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by F. Potts Green, Bellefonte, Pa. v26-5-1y

Report of the Ladies' Village Improvement Society.

Following we give in full a report of the Ladies' Village Improvement Society, as presented to council on Monday evening:

The attention of council is respectfully asked to the following localities in this Borough, with respect to repair and cleanliness:

As to repair—The crossing of alley between C. P. Hewes and J. D. Shugert.

The crossing of Allegheny street, between Episcopal church and residence of Gov. D. H. Hastings.

Alley and drain between F. P. Green and George VanTries, on Linn street.

Crossing needed on Linn street, between Allegheny and Ridge streets.

As to Cleanliness—The pavements, gutters and alley of Brockerhoff House, and stores under Brockerhoff House.

The gutter and street between Brockerhoff alley and Bishop street, on west side of Allegheny, and gutter and street between Bishop street and Allegheny on the east side.

Complaint has been made to Village improvement Society of the offensive odors arising from the street between Brockerhoff alley and Bishop street. Pavement, gutter and street belonging to Crider's Exchange on Allegheny street. Pavements, gutter and street from Daniel Garman's residence, corner Spring and High streets to Spring Creek. Special attention is called to this locality.

The accumulation of filth, quantity of loose paper, and barrels filled with debris, cause our special protest.

Also, the gutter from Spring creek to *Republican* office. Barrels constantly obstruct the pavement at Andersons, giving too convenient resting-place for loafers.

The North side of High street, from Spring street, is usually obstructed with objectionable material.

We would request that gutters be repaired where necessary.

We ask that owners of stores and shops be requested to burn the sweepings of their rooms.

That the scattering of loose papers, and throwing about of dodgers, advertisements, etc., etc., be prohibited.

We ask that the ordinance requiring the cows to be kept off our streets, be enforced, as we are still annoyed by their presence.

We would wish to have our streets, pavements and gutters thoroughly repaired and cleaned, and kept in good condition by the enforcement of an efficient ordinance; or, if none to that effect exists, we would ask Council to provide us one.

VILLAGE IMPROVEMENT SOCIETY.

Bellefonte, Pa., April 15, 1895.

Substituting Fish for Beef.

With the rise in the price of beef and a consequent lessening in its consumption the question of a substitute for it is being discussed by many housekeepers. A resort cannot be had to mutton, as the supply of this has been largely reduced by the Democratic tariff war on wool. This war resulted last year in reducing the number of sheep by 6,396,000, and as a similar decline has been going on since the Autumn of 1892, when the election of Cleveland and a Democratic Congress made it evident that a free wool tariff bill would be passed, there is no abundant supply of mutton from which a substitute for beef can be drawn. The only other cheap meat is pork and to the free use of that as a food many people have an aversion.

If fish can be in a measure substituted for beef the result will be beneficial both to the pocket and health of the consumer. That fish is one of the most healthful of foods has been conclusively demonstrated by trustworthy authorities and its larger use by people addicted to the consumption of too much rich meat has been often advised. It cannot wholly take the place of meat as a food, but it can be used to vary and lighten the diet of all classes of people. As to the saving in price, a Baltimore dealer in fish gave these facts to the "American" of that city: "A shad weighing five pounds costs the consumer, say 30 cents, and it goes farther than the same amount of meat. If the latter is chuck roast it costs now about 12 cents a pound, or 60 cents for five pounds—twice the price of a five-pound shad. If you take prime ribs the cost would be four times as much as shad."

A Chance to Save Money.

There is not the slightest reason why you should not feel well and strong. That great offer of Dr. Greene's is proving the best friend that weak and delicate people ever had. A letter sent to him at his office, 35 West 14th St., New York City, telling the symptoms you are suffering from, will be immediately answered by the Doctor, describing your complaint minutely, and making you understand perfectly just what ails you. And all this costs you nothing. You don't have to leave your home and you don't have to pay any doctor's fee to learn exactly what your complaint is, and how to get well and strong, from Dr. Greene, the greatest living specialist in curing nervous and chronic diseases. The doctor makes a specialty of curing patients through his great system of letter correspondence, and is having wonderful success. Thousands of weak, delicate men and women are writing him about their complaints, and are being permanently cured. It was he who discovered that world-renowned curative, Dr. Greene's Nervura blood and nerve remedy. Write the Doctor at once and see what he says about your complaint. It will probably be the means of your getting back your health.

PROF. WILLARD WILL SPEAK

Many Reasons Why the Y. M. C. A. Should be Encouraged.

Land for the new west-side headquarters of the New York Y. M. C. A. has been secured on the 56th street, near 8th avenue, by the use of the Wm. H. Vanderbilt legacy, now amounting, with accrued interest, to $140,000. The entire cost of the lot is $165,000. Of this amount one man gives one-third. The Association throughout the world must not be compared with the Bellefonte Association. Men of prominence and wealth invest their money in this grand work, in hundreds of our large cities. Bellefonte seems not to be blessed like other places.

***

Mr. R. J. Roberts, Director of the Y. M. C. A. Gymnasium in Boston, has been engaged to teach his system of floor work and practical exercises, which are especially adapted to the use of Young Men's Christian Associations, in the Howard University gymnasium during the months of July and August. A large number have already made application to attend, and the prospects are that more will desire to attend than can be accommodated. Mr. Roberts is very popular with young men, and especially members of the Young Men's Christian Association.

***

Hon. S. H. Blake, of Canada, loves the Y. M. C. A., because:

It defends the Sabbath.
It gives much of the Bible.
It works through God's spirit,
It makes better men and citizens.
It recognizes the power of prayer.
It teaches boys to honor their parents.
It provides true men for happy homes.
It introduces righteousness among young men.
It gives places of refuge from the devil's traps.
It seeks not what will benefit one alone but what will benefit many.

***

Exercises will prolong youth. The figure of the middle-aged often becomes set and squat-looking; their shoulders and head bend forward and they shorten in height. This can be in a great part deferred for many years, if they would daily do such exercises as the far out reach, back-neck work, and dry-land swim. Also, do the out-door breathing exercise, and a moderate amount of jog running every day. As long as one can keep his chest walls very flexible he is young, no matter what his age may be. If one thinks right, one will soon do right. Apply this thinking to physical exercise, we will give you the thought. He who takes the home drill and a sponge bath each day does a wise thing. Think over this and you will soon make up your mind to take exercise every day. If you do not know the home drill, join our gym. and we will soon teach it to you, and also many other beneficial exercises and ideas that will keep you in good physical condition. Inactivity of the body soon weakens its powers and paves the way for disease to make an easy entrance. Make it the habit of your life to take, at least, an hour's active physical exercise daily. If you do this you will seldom need the doctor's care, and will prolong the days of your youth, for a man is as young as he feels, no matter what his age may be. Remember that light varied exercise taken daily aids in starving off old age. Stand, and sit, and walk erect. The position one assumes the most of the time he will soon grow into.

Not Sick Enough for the Doctor,

but a little out of sorts. Ripan's Tabules would serve in your case. It is well to have them on hand for just such occasions.

—A fresh shipment of nice Mackerel just received, at Eureka Grocery store will be closed out at 10cts. each or 3 for 25cts. tf

Almost Blind

Inflamed Eyes and Running Sores

The Success of Hood's Causes Great Rejoicing—A Perfect Cure.

Miss Cora B. Ebert
Barnesville, Pa.

"C. I. Hood & Co., Lowell, Mass.:

"I feel it a duty to state what Hood's Sarsaparilla has done for me. I was almost blind, being compelled to stay in a darkened room on account of inflammation of the eyes. I also suffered with running sores on my body. I was in terrible condition. My mother tried every thing she knew about and I was attended by two doctors but without helping me. Finally Hood's Sarsaparilla was recommended and I had not taken two bottles before I began to get better. The inflammation left my eyes and the sores healed, and the result was that

I Became Stronger,

and was restored to perfect health. At that time I was only twelve years old; now I am nineteen and I have not since been troubled with my eyes or noticed any sign of a return of the sores on my body. I can recommend Hood's Sarsaparilla as an excellent blood purifying medicine." MISS CORA EBERT, Barnesville, Pa.

Hood's Sarsaparilla Cures

Hood's Pills act easily, yet promptly and efficiently, on the liver and bowels. 25c.

Rheumatism, Neuralgia, Sciatica, Backache.

ST. JACOBS OIL

SAFE, SURE, PROMPT.

He Rode the Wheel.

When A. A. Dale, Esq., undertakes to do anything he always makes up his mind to succeed and, being possessed of just a sufficient amount of patience, pluck and perseverance, he generally does. Some time ago he conceived the idea that he would become a bicyclist. With him, no sooner did the idea present itself than it was carried into execution by the purchase of one of the latest improved and best make of wheels.

When the cycle arrived, Mr. Dale, who is rather modest, thought it would be a good idea to do some practice work all by himself, before appearing in public, consequently every evening he would take his wheel and repair to some unfrequented highway where many a lone hour was spent in diligent practice. After some two weeks' such work Al. concluded that he was proficient enough to appear on the streets of Bellefonte, and so last Friday evening he got out his bike and started in front of his office for a spin down High street.

It must be admitted that Al. had gained considerable control over the two-wheeled vehicle as he came straight as a bee line down the street and gracefully turned the corner at the Bush Arcade for a spin out Water street. His mind was all aglow with pride at his accomplishment, his cheeks flushed with exhiliration and with his eyes on the wheel, he failed to notice the huge pile of stone recently quarried on that thoroughfare until there was a collision, a crash and a tumble. The corner of the stone pile was knocked down, the cycle was badly dilapidated and Al. had a badly bumped and bruised shoulder. As quick as possible he took a look around to see if he had been observed but seeing no one he felt safe and at once gathered up the shattered machine and took it to Wetzel's shop for repairs. The wheel was fixed but Mr. Dale's shoulder is yet a little stiff and the next time he rides out he will keep a sharp outlook ahead.

It is one of the depressing signs of the times that false science and charlatanism continue to receive so much encouragement as they do. In the domain of meteorology this is particularly the case, and point is given to the matter by the announcement that the Chicago, Rock Island & Pacific Railroad Company is actually interested in the work of rain-makers and intends this year to carry on its experiments more elaborately than ever. If there ever was foolishness this effort at rainmaking certainly belongs to that category. The simplest facts of physics show that it is beyond human ingenuity to bring together the mighty forces that represent the energy of even a small rainstorm. It has been calculated that millions of tons of coal would be required to bring about the conditions that are factors in the formation of rain, and yet the Western rainmakers by making bad odors with a handful of chemicals or exploding a little powder expect to accomplish these dynamic results. The methods are nauseating. It is really amazing that the Water Bureau should allow its name to be used in connection with the experiments even if it is in a spirit of complaisance.

A Southern Candidate.

It is bruited about that the recent agitation in favor of a Southern candidate of the Democracy for President is in the interest of Hoke Smith. That Hoke Smith has the right to entertain Presidential ambitions is as indisputable as that the Hon. Champ Clark or the Hon. Pod Dismuth is entitled to the same privilege. If the Democracy wish to indulge in the amusement of running Hoke Smith for President, the Northern Republicans need not say them nay.

Nevertheless, if the Democrats wish to find a Southern candidate who will present some other qualifications than all the weaknesses of the administration, without any of its virtues, extinct or extant, they will have to look elsewhere. Morgan, of Alabama, has characteristics of his own. He appeals to the ex-Confederate fervor by representing himself as "an embassador from the State of Alabama." He has been so steadfast in the service of corporate schemes and jingo speculations that he ought to command a well-lined campaign barrel. Finally, he has kept up a platonic alliance with silver of such fidelity that he might command the votes of the free silver insurgents, if they conclude that they can believe in anything that Morgan says.

It will not make much difference in the administration of the next four years whether Smith or Morgan, Private John Allen or the Hon. Hinky Dink, of Chicago, is nominated by the Democracy next year. But if that party wishes to indulge in the long forbidden luxury of a Southern candidate, untrammeled by real Democratic principles and likely to be supplied with campaign funds dear to the heart of the workers, Morgan is their most eligible man.

It is not unlikely that American shipbuilders will secure the contracts for some of the new gunboats the Spanish government is about to order for cruising in Cuban waters. Our shipyards have made wonderful strides in recent years and now possess admirable facilities for doing work in competition with the crack shipwrights of Europe. Spain is in a hurry for the vessels and is therefor disposed to go out into the markets of the world and strike the best bargains she can. It is very improbable that she would permit the Alliance fucident to prejudice her against awarding contracts to citizens of the United States.

Children Cry for Pitcher's Castoria.

IS IT THE END?

A Time of Great Mortality.

Especially Noticeable in Children. — Will Man Cease to Exist? — Can the "Omega" be Averted?

Why is it, with our improved sanitary appliances, our care to obtain fresh air, pure food, and plenty of exercise, the observance, in fact, of every hygienic law, that in spite of every care each succeeding generation seems to become weaker and shorter lived? Is it that we are now suffering for indiscretions of our ancestors, or is that terrible, unknown end of man at hand?

Whatever the cause, the existing condition of things is too apparent. Especially is this noticeable with the babies. Instead of the mother's life-giving milk, they are compelled to begin a struggle for existence with the bottle. The result in many cases is disastrous. The little one, failing to obtain necessary nourishment, grows weaker daily, until death ends the struggle. The end in these cases is

Simply Starvation.

With this termination so often the case, the best physicians of the day have resorted to the use of Bovinine, that great and original raw food product, as a means to save the babies.

In this connection Dr. A. B. Robinson, 61 Dudley St., Boston, after commending Bovinine most highly for various complications where the waste of disease must be checked, and new blood, flesh, and strength created to effect a cure, says concerning this life-creating preparation, "With feeble, bottle-fed babies, a small amount added to the milk has in my practice saved many children."

Bovinine is not a medicine, but a life-maintaining, flesh, bone, and blood-making preparation that contains the greatest amount of nourishment in the least possible bulk.

Give it to the little ones while there is still hope. Your physician, if you ask him, will recommend it, and you will bless the results obtained forever.

To Report Flood Data.

The United States weather bureau will establish six stations along the West Branch, the duties of which will be to send daily reports of the stage of water during high water periods. The first of these stations has already been established at Williamsport, the weather clerk in that city having received his blanks Thursday. On the blanks will be recorded daily heights of the river, changes in twenty-four hours, depth of rain or melted snow, actual depth of snow fall, depth of accumulated snow on 15th day of month, on last day of month and date of which the last snow of the season disappeared. In flood times these reports will be sent in hourly if necessary. Heretofore the weather bureau has been going at this matter in a haphazard way, but it is now proposed to do it right. By collecting the data daily from the different stations and keeping track of all weather conditions, then averaging it, the bureau hopes to be able to give accurate flood predictions which will be of incalculable benefit to everybody in this section. The co-operation of the railroad companies will be a great help in this direction, and it will not be long, it is thought, until the weather bureau will have a flood service established that will be appreciated by all.

As there are six stations to be established along the West Branch, it is more than likely that Lock Haven will be selected as one of the places.

Brick Works Will Resume.

The rebuilt Mill Hall brick works started its machinery this morning for the first time since the original plant was destroyed by fire several months ago. All the new machinery worked smoothly and the process of making brick will be pushed with vigor. The resuming of operations of this plant will be hailed with delight by Mill Ha residents.

Several persons were killed and others were wounded by the fall of two buildings yesterday in Wheeling, West Virginia. The buildings were adjoining, and one was only approaching completion. The cause of the disaster is attributed to the defective construction of the older building, to which two stories had been lately added. Accidents of this character are becoming distressingly frequent. Laws and ordinances imposing proper restrictions, and building inspectors who inspect, are prime necessities in a good many cities and towns throughout the country.

—A representative of the Philadelphia *Inquirer* is in Bellefonte introducing that paper's standard encyclopedia.

Velocity of a Cannon Ball.

How to measure the velocity of a projectile in its flight from a gun, seems to the uninitiated a difficult problem, and yet it amounts to little more than just the division of a certain space passed over by the time which it has taken to do this, both space and time being determined by measurement and apparatus of the simplest character. Somewhere in the path of the projectile are placed two wire screens, each formed of a simple frame across which a wire runs back and forth, forming part of an electric battery circuit in which an accurate timepiece is also interposed. As the projectile, on being fired from the gun, passes through the first screen, the circuit of which it is a part is broken and the clockwork is started, the index originally pointing to zero. On passing through the second screen, the projectile interrupts the second circuit, with the effect of instantly bringing the clock mechanism to a stop. Knowing then the exact distance between the two screens, usually several hundred feet, it follows that by dividing it by the number of seconds or the fractions of a second marked on the clock dial, representing the time which has elapsed during the passage of the projectile from screen to screen, we obtain the number of feet per second which the projectile was traveling. Nothing much simpler could well be devised, the whole secret of satisfactory measurement lying in the accuracy of the time determination, in which even so small a thing as a small fraction of a second becomes a factor of the utmost importance.—Cassier's Magazine.

Co. B in Bad Shape.

Co. B of Bellefonte is said to be in bad shape at the present time. Capt. W. F. Reber spends most of his time attending to his business in Philadelphia, while Lieutenant Jackson and Taylor have not appeared before the examining board and therefore have not received their commissions. This however, does not stop Friday night drills—although a patrol is necessary to bring the boys.

England is not the only country that is watching Russia anxiously. The Japanese have laid out a fortified camp on the frontier between Russia and Corea and are said to have stationed 30,000 men there in order to meet possible aggression by Russia. Norway is inclined to quarrel with its twins, Sweden, and Germany suspects that Russia is at the bottom of Norway's militant spirit. Should Russia subjugate Sweden and absorb Norway she would obtain an outlet on the Atlantic which would be of inestimable value.

NEW DISCOVERY.

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take he place of silver in the manufacture of fine tableware.

Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want every one to have a chance to compare silvereen with silver, so for the next sixty days we are going to give away one half dozen Crown Silver Tea Spoons *Free*, to every person who will send for one of our Terry's Silvereen sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Silvereen goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons.

Price of Silvereen set, $2.00. f7-2y.

KILLED THE CASHIER.

Senator Goebel, of Kentucky, Shot John Sanford in Covington.

Covington, Ky., April 11.—State Senator, W. E. Goebel shot and killed Cashier John Sanford, of the Farmers' and Traders' bank, this evening in front of the First National bank of this city. Senator Goebel, accompanied by Attorney General Hendrick, of Kentucky, and Frank Helm, president of the First National bank was en route to the bank. When they reached the door there stood Sanford. He shook hands with Hendrick, using his left hand. Then he asked Goebel if he wrote an article that lately appeared in the papers attacking him. Goebel answered, "I did."

Immediately Sanford fired, the ball passing through Goebel's trousers. Quick as a flash Goebel leveled his revolver and fired. To do so he had to place the pistol beneath Helm's chin. The ball crashed through Sanford's forehead, who fell in the doorway of the bank, blood oozing from his fatal wound. Helm's chin was was badly powder burned.

Great commotion prevailed instantly, the street and bank being crowded at the time. During the confusion Senator Goebel walked to the station house and called up his brother Justus, who is a member of the firm of Lowry & Goebel, of Cincinnati, asking him to come to Covington at once as he was in trouble. Senator Goebel then emerged from the telephone box and, addressing the lieutenant in charge, said: I wish to surrender myself. I have shot and killed John Sanford."

Goebel is unmarried, and Sanford leaves a wife, a sister of the famous Tom Marahall of Kentucky, and several children, one a grown son from whom more trouble is feared. Chief Goodson placed Goebel under arrest, but allowed him to sit in his private office. Senator Goebel was calm at first but later became visibly excited. At first he refused to discuss the affair, but under the excitement he finally gave his version of it.

"Here is the reason I killed him, exclaimed he, as he showed where the ball of Sanford's pistol had passed through his trousers, tearing away a portion of the cloth. "He was lying in wait for me," continued the Senator. "I saw him when I reached the gas office, about twenty feet away from the steps of the First National Bank. I was on my way to the Citizen's National Bank with my friend Hendricks. As soon as I saw him reach for his revolver, I reached for mine."

President Helm and General Hendricks *give very* similar versions of the tragedy.

The homicide grows out of a business and political feud of several years' standing and was not a surprise. Both were from among Kentucky's best known men being leaders in politics, business and society. Not since the famous Goodloe-Swop affair at Lexington, in which both of those distinguished men died, has so deplorable a murder occurred. It has created a state sensation, while locally the greatest excitement prevails as a continuation of the ill-feeling that made murder possible is certain to result in more bloodshed.

Terrible Casualty.

Haverhill, Mass., April 11.—A terrible casualty came to light this afternoon. The elderly maiden sisters, Misses Mary J. and Elizabeth A. Brant, residing alone, were found dead in their chamber, Elizabeth having been burned to death and the other smothered.

It is supposed that Elizabeth early this morning lighted a kerosene lamp to go to her sister's room, and that the lamp exploded, as pieces of it were found in her room; that her clothes took fire and she rushed into her sister's room, closing the door behind her; that she fell and the flames burned her clothing, and that her sister, in endeavoring to get out of bed, was overcome by the smoke or by heart failure. A portion of Elizabeth's body was burned to a crisp. The flames communicated to the head of the bedstead, but died out. Another theory is that the house was entered by burglars, who committed robbery and then endeavored to et the house on fire to cover their crime.

A Harmless Lunatic.

A commission recently appointed by the court to inquire into the condition of one Jacob Halderman, an old man who rightly belongs to Benner township, but who much prefers to aimlessly wander up and down the streets of Bellefonte, has adjudged him a lunatic and recommended that he be sent to an asylum for the insane. But this is hardly necessary, as the old man does nothing but walk up and down the streets, picking up tobacco tags, buttons, cigar stumps, etc., and never at any time has he shown any but the mildest of dispositions. Let the old man alone to enjoy his freedom as long as he may, as the time may not be long before death will take him captive.

Shut Down.

Last week Nigh ore bank, located about three miles east of Bellefonte, along the Central Railroad of Penna., was shut down, provably forever. The mine was owned by the Valentine Iron Company, and has been almost continuously in operation for over fifty years. The supply of ore having exhausted is the cause of the shut down. A number of men living there will thus be thrown out of employment.

A CORRECTION.

Nigh Bank Not Exhausted Nor Abandoned.

EDITOR DAILY NEWS:

One difficulty Bellefonte industries have to contend against is the disposition of our local press to publish every silly rumor about our business interests without the slightest efforts to verify them by inquiring of the parties interested. One of the latest blunders is the item about the Nigh Bank mine. This mine is not shut down or abandoned by any means. Since 1891 the present company has worked this mine on territory which their predecessors had about abandoned. In this time over 25,000 tons of ore have been made from this territory. The shut down is only temporary for the purpose of changing the plane and plant so as to reach out and work the territory which had been tested and delveloped more than five years ago. This new territory is much larger than the old working, fully as rich and unless the tests made are misleading, is likely to enable the company to make at this plant in the future fully as much ore as has been made there in the past fifty years. To make these necessary changes, will require but a few weeks time, and after they are made fully as many men will be employed there as at any time in the past.

Will you therefore correct the following misstatements in your item in yesterday's issue. That Nigh bank is not shut down *forever*; that the ore connected with that bank is *not exhausted*; and that a number of men living there will *not be thrown out of employment*. When these corrections are made you will see how unreliable and misleading the item was, and as it is being copied in other papers, how it gives a false impression as to our mineral wealth in the county.

The corrected facts are: That the Nigh bank is shut down temporarily to change the plane so as to work other adjacent territory; that the new territory is ample to enable this mine to be worked for many years to come; and that the changes now being made are only carrying out plans mapped out more than five years ago by the Centre Iron Company.

You might also add that there is enough ore in Nittany valley east of Bellefonte to supply the Valentine Furnace, and west of Bellefonte to supply Bellefonte Furnace for the next fifty years; and that with the proper appliances and machinery this ore can be mined and manufactured into iron as cheaply here as at any Northern point, When general business revives our iron industries will revive with it. Even in the depression they have made as full time as similar plants. In the last two years the Valentine plant has made as full time as any other furnace in Central Pennsylvania; and in four years they have always kept themselves stocked so as to be able to supply their patrons with their well known "Nittany" brand of iron.

Mr. Editor, would it be asking too much of the local press, to verify rumors about our business interests before sending them broadcast over the land. A public misstatement such as I have corrected above does more harm to our business interests then a dozen Boards of Trade can counteract. Your and the *Centre Democrat* startling Nigh bank item has already been copied in a number of state papers, totally unreliable and misleading as it is, and I will venture to predict that its correction will not appear in one-fourth of these papers. By this carelessness you have, I feel sure, not helped to build up Bellefonte's iron industries. J. W. GEPHART.

The Best Meat in Town

Can be seen at William Lyon's market, on Allegheny street. Some of the best beef sold in Bellefonte was cut up there to-day and you are specially asked to call around to-morrow morning and see it. Also the finest of mutton, veal and Spring Lamb. It makes you hungry to look at it.

IRVIN HOUSE LOCK HAVEN, PA.—The home of Commercial men. The paradise for the weary traveler, and the best hotel to stop at in Lock Haven. Free bus to and from all trains.
S. WOODS CALDWELL, Prop

THERE is but one way in the world to be sure of having the best paint, and that is to use only a well-established brand of strictly pure white lead, pure linseed oil, and pure colors.*

The following brands are standard, "Old Dutch" process, and are always absolutely

Strictly Pure White Lead

"Armstrong & McKelvy,"
"Beymer-Bauman,"
"Davis-Chambers,"
"Fahnestock."

* If you want colored paint, tint any of the above strictly pure leads with National Lead Co.'s Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each can being sufficient to tint 25 pounds of Strictly Pure White Lead the desired shade; they are in no sense ready-mixed paints, but a combination of perfectly pure colors in the handiest form to tint Strictly Pure White Lead.

Send us a postal card and get our book on paints and color-card, free.

Interesting Reminiscences.

At the celebration of the Centennial of the Huntingdon Presbytery at Huntingdon on Tuesday last D. W. Woods, Esq., of Lewistown delivered an address and in the course of his remarks made allusion to two famous highwaymen whose names are familiar to the older residents of this city and vicinity. Mr. Woods said:

"In speaking of the churches in Juniata county, I desire to mention an anecdote that may not be out of place here. When I was a boy, Rev. John Hutchinson was a frequent visitor at my father's and I was present on one occasion when Mr. Hutchinson told my father this incident. He said at one time he was on his way to Bellefonte to preach for Rev. James Linn, and on the Seven Mountains he was stopped by two noted highwaymen Lewis and Clark, who infested the mountains of Centre county. After robbing him of all the money he had and his watch he said to them: "Now, men, I wish you would let me have fifty cents back; I am going to Bellefonte to preach and I have not a cent to pay my way." Lewis said to him "Are you a minister?" Father Hutchinson answered: "I am, and am going to Bellefonte to preach for Mr. Linn." Then Lewis said to Clark: "Give this man back his watch and money." To this Clark demurred but Lewis made him do it, and said: "We don't rob poor men or ministers; they are paid little enough." So Father Hutchinson got his money and watch back and went on his way rejoicing.

On Its First.

The State College base ball team departed Thursday evening to play its first game of the season with Dickison College, at Carlisle Friday. Captain Stuart took along the following team:

Hayes, catcher; Nesbit, pitcher; Atherton, first base; Stuart, second base; Rice shortstop; Walker, third base; Brown, left field; Thomas, center field; Greenland, right field; substitutes, Painter, Rawn and McCrumm.

The above is not the regular make up of the team as it shall stand during the entire season, but is composed of some regulars and some substitutes. A game has also been arranged for with Lafayette College, at Easton, to take place on Tuesday, April 23rd.

Outwitted the Sheriff.

The Lancaster Intelligencer tells the following: Deputy Sheriff Dissinger went to Mt. Nebo on Monday of last week to sell personal property of Isaac Walton on an execution for $119.55. When the sheriff reached the place he found a few of the neighbors assembled. As Mrs. Walton expressed a desire to purchase the articles offered none of them would bid. The result was that Mrs. Walton secured the personal property for 31 cents. As the costs are many times that amount the sheriff must wait for his fees until he sells the real estate of Walton. The amount received is smallest in the history for a sheriff's sale.

No one, Republican or Democrat, will take pleasure in the financial embarrassment of ex-Senator Mahone, of Virginia, but every well wisher of the Republican party will hope that it marks the end of his dominating influence over the Republican organization in his State. That influence has been in a large degree pernicious. That there are many obstacles encountered by any white man in the Southern States who leaves the Democratic party and joins the Republican party is well known. He has to fight social, financial and political influences and his lot is made as unpleasant as it is possible to make it. With all these difficulties General Mahone had to contend, and perhaps it is only natural that they should have colored his course in the Republican party. Nevertheless it cannot be denied that while he gave the party a brief season of triumph the ultimate effect of his methods has been greatly to demoralize and weaken the party. He obtained and kept his influence by a commanding will power and by money. With the wreck of his fortune and advancing years his power must decline and an opportunity will be offered for younger men with cleaner political methods to come to the front and reorganize and rehabilitate the Republican party in Virginia. In this sense some public good may come out of General Mahone's misfortune.

Death of Mrs Meek.

On Wednesday, the 8th, Mrs. Maria Chambers Meek, widow of George W. Meek, died at her home in Stormstown after a long illness. More or less of an invalid all her life she had been in failing health for months and although only confined to bed for a few weeks had been seriously ill since last September. She knew and was able to converse with her friends however 'til the day of her death.

Her father, Elijah Chambers, who was a soldier in the Revolution, came from New Jersey and with his family located in Patton township in 1834. Always prepossessing in person and refined in manner she married George Y. Meek, of Fairbrook, Ferguson township, and three years after his death, in '57, his cousin George W. Meek, who died in 1877. The following year she returned to her old home in Halfmoon to be with her brother James, and since his death in '79 had made her home in Stormstown. Almost eighty-six years old she joined the Methodist church in early girlhood and was always beloved for her gentleness and kindness.

Never having had any children of her own, her husband's children, W. E. and D. G. Meek, of Fairbrook, and Mrs. P Gray Meek, her aged sister Mrs. Nancy Hartsock and her nieces and nephews are her nearest relatives living. On Wednesday after the funeral services in the Methodist church at Stormstown she was laid to rest in the Half Moon burial ground.

At the High School.

On Thursday afternoon the Senior class of the Bellefonte High School gave a special entertainment in oratory. The room was well filled with patrons and visitors and the program of exercises rendered was as follows, beginning with a song by the school:

Oration, "The New South," Tessie Lyon.

Oration, "Luck and Pluck," Nellie Anderson.

Oration, "Our Defenders," William McCalmont.

Oration, "A Decisive Battle," Hattie Stott.

Song—by the school.

Oration, "Four Questions of Progress," Anna Fox.

Oration, "Ideals," Katie Lieb.

Oration, "Nihilism," Albert Jackson.

Oration, "Bruce and the Spider," Lena Baum.

Song—by the school.

Oration, "New Japan," Kittie Heyl.umn.

Oration, "Loyalty," Charles McClure.

Oration. "The New Era," Fannie El.more.

Instrumental solo—Miss Nellie Anderson.

Oration, "Heroes, Sung and Unsung," Mary Underwood.

Oration, "Rewards of Tyrany," Gray Hastings.

Oration, "Silent Influences," Della Goodfellow.

Song—by the school.

Brief addresses were then made by Rev Shaw, Rev. H. A. Grant, J. C. Meyer and Paul Fortney.

April 21st is the Date.

For the last six months the friends of Benner Armor, son of Monroe Armor of Bellefonte, have been looking forward to the event when he would say his first mass in the Catholic church of this place. Next Tuesday he will be ordained into the priesthood at Baltimore, Md., and on the succeding Sabbath, April 21st, he will officiate in the Bellefonte Catholic church. This will be a service of unusual interest and one of the special features will be the rendering of some extra fine music by a very large choir composed of some of the best talent in Bellefonte among whom will be Mrs. Burnett, Dr. George F. Harris, Lee B. Woodcock and many others. The service will be free and the church will be full.

Several weeks afterwards Rev. Father Benner Armor will officiate at a service of which one of his sisters will be deeply interested. No further comments are necessary just at this particular time.

What is an Emulsion?

Milk is a true Emulsion, and as milk or cream is easier to digest and assimilate than butter, so is the milk or cream of Cod-liver Oil easier to digest and assimilate than raw Oil. This is why Scott's Emulsion is much more useful and effective than the natural Oil; why it accomplishes so much in arresting waste and building up the body.

But it is much more than ordinary fat food. It has other constituents that have wonderful healing and strengthening power, and in addition we add the Hypophosphites (or Phosphorus), another most important element in overcoming decreased vitality or loss of flesh. These are the reasons why Scott's Emulsion is benefiting to-day hundreds of thousands of consumptives and anæmic persons, as well as being a food and remedy for sickly, wasting children that is surprising both to physicians and parents.

Bellefonte Republican,

To CORRESPONDENTS.—No communication published unless accompanied by the real name of the writer.
Correspondents should write upon but one side of the paper, and avoid the use of pale or any inks.

EDWARD T. TUTEN.

Local Department.

—The trout fisherman still keep at it.

—The rivers are now too high for good rafting.

—The centennial of the Huntingdon Presbytery is at an end.

—Oil is now quoted at $2.00 a barrel a raise of $1.20 in a fortnight.

—Now would be a good time for the Salt Lick Gas and Oil Company to strike "ile."

—Fish stories were quite plentiful on Monday and some of the catches enormously large.

—Dr. and Mrs. J. E. Ward are rejoicing over the arrival of a young daughter in their household.

—The ladies are trying to make an eden out of Bellefonte. Hope they will succeed, as there is room for great improvement.

—Mr. W. E. Gettig, of Altoona, and Miss Anna L. Myer, of Boalsburg, was married in the Reformed church at the latter place on Thursday at 8 o'clock.

—There was a very good attendance at the Undine's Easter ball Monday evening and everything went off in good style, the best of order being maintained through out.

—The hardest work the Pennsylvania legislature is now having is trying to make both ends meet—in cash. They can make the little end meet but the big end won't gee.

—Mrs. Laughlin, of East Lamb street was so unfortunate as to fall down a stairway on Saturday, fracturing her wrist and two fingers. As she is quite an aged lady the injury may prove severe.

—The funeral of R. Bruce Petriken, who died in Huntingdon Monday, will occur to-morrow (Wednesday) afternoon. Notice of Mr. Petriken's death will be found in our telegraphic columns.

—Miss Dorothy Jenkins arrived in Bellefonte on Wednesday afternoon and in the future will make her home with Mr. and Mrs. William Jenkins, on High street. Of course, congratulations are in order.

—Another change has taken place at the Adams Express company's office in this place by which Harry Taylor succeeds Herbert Shaffer as driver of the wagon. Harry will likely make a faithful employee.

—Easter was a fairly nice day, the temperature ranging from about 40 to 60 degrees above zero, was not any too warm, but nevertheless, not cold enough to prevent the appearance of a large number and variety of spring hats and costumes.

—Margaret Catherine, the six-months'-old child of Mr. and Mrs. George Garman, died at its parent's home in Bush's Addition, on Thursday. The funeral was held Saturday forenoon at 11 o'clock, interment being made in the Union cemetery.

—Mr. and Mrs. J. H. Miller, of Rock Spring, have issued invitations to the marriage of their daughter, Carrie May, and Frank E. Wieland. The wedding is to take place at the home of the bride's parents, at noon on Thursday, April 18th.

—A certain gentleman in Bellefonte says a good way to make money is to always keep a goodly sum where you can get it on demand, and then when a good thing comes your way invest it. But he failed to state where to get the "goodly sum."

—Smokers, where do you buy your cigars? Have you ever tried Cruse's? They are the best all-'round cigar now manufactured. If you don't believe it, read the advertisement in another column of the NEWS then go and get a good cigar and enjoy yourself.

—On Wednesday the state legislature saw the launch of the St. Paul in Philadelphia and then took a lunch at the expense of the International Navigation company, and in return all the company asks is an appropriation of $500,000 to improve the Delaware river. And it will likely be given.

—The diameter of a circular field is 240 rods. How many acres of grass will be left after seven horses have eaten all they can reach, the cords which are allowed them being of equal length, and attached to a post so located that each horse can just touch his neighbor's territory, and none can reach beyond the fence.

—Why don't the Secretary of the Board of Health of Bellefonte make an inspection of the dairy farms from which Bellefonte draws its milk supply, same as is done in every other town of any importance in the State? The tuberculosis craze is so great now, that Bellefonte surely ought to be in it; at least, to a certain extent. What think you, Mr. Secretary?

—And now that the fire companies of Bellefonte are going ahead in earnest to arrange for their part of the centennial celebration in Bellefohte, maybe the Chief Burgess could be wakened up to a sense of duty and be prevailed upon to make an attempt towards a general centennial organization among the citizens of the town. It would be the proper thing to do, and it is high time it is being done, too.

—In addition to sprinkling the streets the present force also sweeps the crossings.

—Don't forget to boom the public meeting for Friday evening. Remember the band will be there.

—Should oil go as high as $3 per barrel it will make us think we are back to the days of our forefathers.

—We will just here state that A. A. Dale, Esq., can now ride his bicycle without running into any stone piles.

—A revolting case of child beating is reported from up Bald Eagle valley but we are yet lacking in facts to give particulars.

—Some people doubt the ability of John Anderson to catch a 16-inch trout, but those persons don't know John's size as a fisherman.

—Rev. H. A. Grant has been selected to deliver the memorial address to Gregg Post on Sunday, May 26th, just the Sabbath previous to memorial day.

—The "Magnet" this week treats its readers to an unusual dose of self-conceit. What a delight it must be to be able to edit and print a "perfect" newspaper.

—On Tuesday evening Judge Love went out trout fishing and in a half hour or so hooked five nice ones. He fished with a fly, too, and not bait. The Judge is an expert angler.

—"The Daily Review" is a new paper just issued at Reading. It comes to our table looking as bright and enterprising as a veteran in the field, and we hope it may always continue thus.

—If there is no agent for the Pittsburg *Times* in your locality it will pay you to write to the *Times* for terms to agents. The *Times* is Pittsburg's best paper and persons who serve as agents are granted liberal terms.

—At the special meeting of Bellefonte Conclave, No 111, held Monday night, nineteen new members were taken into the Order. Mr. G. A. Patton, of Altoona was present, and assisted in the work of taking them in.

—The Pittsburg *Times* is introducing a new innovation—the publication every Saturday of a complete exposition of the International Sunday school lesson for the following Sunday. The column will be edited by a celebrated and most eminent divine.

—The Ladies' Village Improvement Society came in for a good bit of talk on Tuesday evening. That is, we mean a good bit of talk by business men and property owners. Of course, it would be superfluous to say the members of the Society talked.

—The bill to prohibit the killing of deer in the state under a penalty of $200, for five years after October 1 next, passed finally in the house. A similar bill as to the shooting of quail and other game birds and the taking of fish from the pubic streams is likely to follow.

—Owing to the fact that district attorney of Bedford county will not have any business to bring before the grand jury of that county this week, the sheriff has been instructed to notify citizen summoned as grand jurors not to attend—a state of things that never before happened in the history of Bedford county.

—No paper must in the future be burnt on the streets of Bellefonte. Neither must you sweep out front, nor allow dust to accumulate on your door sills, pavements, etc. All cobwebs must be swept down every morning and, if you can conveniently afford it, a strip of Brussels carpet for pedestrians to walk on, would be appreciated in front of your premises.

—An impromptu banquet was the attraction at Haag's hotel in this place at noon yesterday, and with John Q. Miles, as master of ceremonies, the Commissioners of Clearfield and Centre counties, with a number of the other county officials, and several bridge men, undertook to stow away the many dainties landlord Keller had prepared for them. The visiting Commissioners were here on business relating to the erection of a joint county bridge in Philipsburg.

The Lutheran Church Social.

This (Thursday) evening the regular social of the Lutheran church will be held at the residence of ex-Sheriff William A. Ishler, on East High street, at which the usual refreshments will be served, namely, oysters, ice cream cake, etc., with such amusements as the committee may suggest. All are cordially invited to come and fill up the house, as the Sheriff says the house will be open from the first to the fourth story. The commitee having it in charge have their arrangements well under way to make it a success.

February Election to Stay.

The February election is of course a source of considerable public expense, but it would, we think, have been a great mistake to have abolished it, and required that the election of state and municipal officials should take place at the same time. The mixing of the two could hardly fail to prove mischievous. The maintaining of it as at present, while it involves expense, will give voters a better chance to inform themselves in regard to the different issue, and to vote more intelligently upon each. The Legislature acted wisely in defeating the bill for the abolishing of the February election.

MONEY TO LOAN—In amounts of five thousand dollars and over, on CENTRAL BUSINESS PROPERTY.
H. WILBUR BICKLE, Atty-at-Law.
m22-1m

QUIGLEY—MERRIMAN.

A Brilliant Wedding Last Evening at Bradford, N. Y.

BRADFORD, N. Y., April 18.

The marriage of Miss Agusta Curtis Merriman, of this place, to Mr. Henry Croskey Quigley, of Bellefonte, Pa., was solemnized yesterday, April 17th, at 6.30 p. m., in the presence of relatives and friends of the contracting parties. The wedding occurred in St. Andrews church of this village, which was brilliantly illuminated and had been artistically decorated with a profusion of potted plants, cut flowers and palms, and presented a very attractive appearance as the bridal procession came up the centre aisle to the sweet strains of the bridal march from Lohengrin, executed by Miss Mary Robinson, an accomplished musician of this place.

First came the ushers, Mr. Harry R. Leyden, of Philadelphia; Messrs. Lee Barnes Woodcock, Joseph L. Montgomery, and Thomas K. Morris, of Bellefonte, Pa., followed by the bridesmaids, the Misses Merriman, of Philadelphia; Miss Gertrude Quigley, of Blanchard, Pa., sister of the groom; Miss Conrow, of Brooklyn; Miss Kissam, of Orange, N. J. and Miss Mary Talmage, of Auburn, N. Y. The bridesmaids wore dainty costumes of white dotted swiss and green ribbons, and carried boquets of white carnations and maiden hair fern. Then came the maid of honor, Miss Mary P. Wood, of Conshohocken, Pa., attired in white Musseline De Soie over white satin, trimmed with silver spangles and green satin ribbons. The bride then followed leaning on the arm of her brother, W. E. C. Merriman, of Williamsport, Pa. She wore a gown of white satin, cut en train, with pearl trimming, and tulle veil, and carried a beautiful boquet of white roses. When the bride reached the foot of the chancel steps, where stood the officiating clergyman, Rev. H. S. Dennis, the rector of the parish, she was met by the groom, attended by his brother, J. Edwin Quigley, of Buffalo. Then commenced the beautiful and impressive marriage ceremony of the Protestant Episcopal church. The bride was given away by her brother, after which the contracting parties went forward to the altar rail attended by the maid of honor and the best man and were there declared one. When the benediction had been spoken the bridal party marched out of the church to the strains of Mendelssohn.

Immediately after the ceremony at the church a reception to the immediate relatives was given at the home of the bride's mother, which was decorated throughout with potted plants, cut flowers and palms. A pretty feature of the arrangements was the enclosing of one of the porches, where rugs, chairs and lamps were placed, and the decorations of the house were repeated. The supper, which was an elegant affair, was furnished by a Bath, N. Y., caterer. The presents were numerous and valuable.

The bride is a daughter of Mrs. Georgiana C. Merriman, of this village, and comes of one of the oldest, wealthiest and most influential families of this section, and is a lovely and highly accomplished young lady. The groom is a young man of ability, and a rapidly rising attorney of Bellefonte. They enter upon their new relation with every prospect of a happy and prosperous future.

After a short bridal tour Mr. and Mrs. Quigley will reside in Bellefonte, in the Hastings mansion, the use of which has been tendered Mr. Quigley by the governor of Pennsylvania during his term of office. Among those present at the wedding were Capt. James A. Quigley, Blanchard, Pa., Mrs. G. R. Curtis, Mrs. G. M. Curtis, Miss Agnes Curtis, Merridan, Ct.; Mr. Hiram Merriman, Mr. and Mrs. W. E. C. Merriman, Mr. and Mrs. Edgar Munson, Mr. and Mrs. C. Larue Munson, Williamsport, Pa.; Mr. and Mrs. William D. Horn, Yonkers, N. Y.; Mr. C. H. Murray, Bellefonte, Pa.; Mrs. George N. Beekman, Mr. James R. Kingsley, Mr. Bernard Winecoop, Bath, N. Y.

Easter at the A. M. E. Church.

The services at the A. M. E. church on Sunday were largely attended. The program, as was announced in Saturday's issue of the NEWS, was carried out to the satisfaction and spiritual enjoyment of all present. It is said that the pastor, Rev. H. A. Grant, preached the most powerful sermon on "The Ressurrection of Christ," ever listened to in that church. Mr. William Mills had charge of the exercises and his address in the evening on "Giving Thanks' was very instructive. Miss Lizzie Harden, the organist, deserves much praise for having so successfully arranged the music for the occasion, while Miss Carrie Mills, who had general supervision over all, is deserving of especial mention for the success of the entire day's services.

William S. Tripple.

Mr. Tripple, of Bellefonte, has been a resident of that place for the last fifty-six years, coming to that place April 1st, 1839. He is in his 76th year and is remarkable for his physical ability to do a good days work at his trade. When Mr. Tripple came to Bellefonte, Bishop street from Spring to Allegheny and the latter to the diamond were all vacant lots. The corner where the 1st National bank is now was then occupied by the Washington tavern, and near the Gov. Hastings residence was the Red Lion tavern, the only taverns in the place. From the Washington tavern stages left for Water street, Lewistown, Erie and Williamsport.—*Herald*.

IN HYMEN'S BONDS.

A Hpapy Wedding at High Noon Tuesday.

Although no bells pealed forth a "merry song" yet the wedding took place at the residence of Mr. and Mrs. W. T. Twitmire on Water street, at high noon Tuesday, was none the less happy because of that omission. It was the occasion of the marriage of Miss Frances I. Twitmire, oldest daughter of Mr. and Mrs. Wilbur Twitmire, to Dr. J. Harry Pickle, of Millersville. About fifty guests were present to witness the ceremony, which was performed at 12 o'clock by Rev. J. A. Woodcock. The parlors were handsomely decorated for the occasion, and at the appointed hour the happy couple, attended by the ushers, Messrs. Curtis Slack and Marley Schock of Lewisburg, and the bridesmaids, Misses Eleanor Twitmire, a sister of the bride, and Dora Elizabeth Mayer, of Rohrerstown, marched into the room to the inspiring strains of Mendelsohn's wedding march as played by Miss Tessie Peters. They were also accompanied by Miss Mary Hicklen, the charming 3-year-old daughter of Mr. and Mrs. C. T. Hicklen, who carried on her arm a tiny basket in which on a silver salver, surrounded by a wreath of tea roses, reposed the wedding ring. The party having taken their respective positions, Rev. Woodcock pronounced the ceremony, using the ring, which made them husband and wife.

The bride looked charming in a gown of cream silk trimmed with duchess lace and pearls, and wearing a long bridal veil caught with diamonds. She carried a boquet of bridal roses. The bridesmaids were arrayed in pale blue silk and carried boquets of pink carnations.

Following the ceremony the bride and groom were overwhelmed with congratulations and then came the wedding breakfast. This was served by Achenbach and included everything that could be desired. The presents were both numerous and valuable, among them being a handsome upright piano, the gift of Mrs. Twitmire to her daughter. The couple departed on the 2.15 p. m. train for a brief trip. We extend congratulations.

Opening of the Trout Season.

Monday morning marked the opening of the trout-fishing season, but the weather and the condition of the waters were very much against the sport—at least any successful pursuit of it. The recent rains and high waters in the springs caused consequent high waters in all the streams and these of a murky condition; and this, added to the cold atmosphere and the prevailing high wind, rendered the conditions very unfavorable. However, there was a large number of sportsmen out trying their luck and catching cold—if nothing else.

But, notwithstanding the bad state of weather and water some good catches were reported. Boyd Gehret caught a string of 29 fine fellows, while a companion had some 18 or 20. Charles Heisler caugh twenty or more and so far as known, had the largest trout caught, having one which measured 18 inches. A whole lot of other sportsmen caught nice strings, so that the total catch was quite large.

Funeral of J. V. Thomas.

On Saturday afternoon at 2.30 o'clock a large crowd of sorrowing friends gathered at the home of the late J. V. Thomas to pay the last tribute of respect to his memory. The remains were encased in a handsome cloth-covered casket and looked natural as life. The services over the dead were conducted by Rev. William Laurie, D. D., of the Presbyterian church, who spoke very feelingly of the life of the departed. There was no music at all The floral offerings were very profuse and appropriate. The pall bearers were John P. Harris, H. B. Pontius, W. B. Rankin, John I. Potter, John G. Love, W. F. Reeder, Howard Lingle, L. T. Munson, F. C. Montgomery and C. T. Gerberich.

Funeral of Laura Bierly.

The funeral of Miss Laura Bierly was held from the Presbyterian church, in Milesburg, Sunday afternoon at 2 o'clock Rev. W. O. Wright officiating. Mr. Wright preached a very appropriate and affecting sermon. Music was furnished by a specially selected choir. After the services the remains were brought to Bellefonte for interment in the Union cemetery. The family desires to return thanks to all kind friends for their sympathy and assistance in this hour of their sad bereavement.

Making Great Preparations.

The Altoona District Epworth League convention to be held at Curwensville on May 16th and 17th, judging from the preparations that are being made, will be a grand success. The members and friends of the Curwensville chapter are doing everything possible to make it interesting and comfortable for the many visitors who will be in attendance at the convention. An effort will be made to have Bishop Mallilieu present.

Mrs. Hannah Glenn.

Mrs. Hannah Glenn died at her home in Pine Grove Mills, Centre county, at 7 o'clock Sunday evening, at the advanced age of 94 years and 17 days. She was the mother of eleven children, seven of whom survive her: Mrs. Robert Meek, Mrs. F. E. Meek, of Altoona; Mrs. Mary McCauley, of Huntingdon, Pa; Mrs. Nancy Burket, of Mount Pleasant, Ia.; Mrs. Margaret McCormic, of Danville, Ia.; Miss Sadie, at home, and Mrs. Henrietta Burket of Stormstown, Pa.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

Death of Aaron Williams.

Though not unexpected, the announcement on Monday of the death of Aaron Williams, which occurred at the home of his brother near Port Matilda, on Monday at 11.45 o'clock a. m., came with a stunning suddenness to his many friends in this place who, though knowing his condition was serious, hoped that the change in location might at least give a temporary lease of life. But it seemed it was not so to be.

Mr. Williams' illness dates back to last November and was a nervous affection which at times completely prostrated him even to affecting his mind. All that medical aid could do was done, without avail, however. About two weeks ago it was considered advisable to remove him to the country and consequently he was taken to the home of his brother near Port Matilda. Here he lingered along, with no appreciable improvement until Monday when he breathed his last, surrounded by his friends and relatives.

Mr. Williams was one of the well known residents of this place. He was a politician and during six years was the efficient prothonotary of Centre county. He was a lawyer by profession, but was not an active practitioner at the bar. He spent a good deal of time traveling and made several trips across the continent.

Last fall he was the democratic candidate for congress in this district, but was defeated by W. C. Arnold, the republican candidate of Dubois, Pa. Deceased leaves a wife and other relatives to mourn their loss.

The funeral will take place on Thursday at 2 o'clock, from his brother's residence, and interment will be made in the cemetery at Port Matilda.

The Heptasophs.

Since the articles on the benefits of the co-operative life insurance plan as carried out by the Heptasophs, have appeared, it is a pleasure to note that a number of our citizens have joined that fraternal order, and availed themselves of the opportunity of providing for their families should they be taken away. Many a poor man has been hastened to the grave and his last moments on earth made sad and miserable by the thought that his near and dear ones would be left to the more or less tender mercies of charity, and all through his neglect to provide a means for their protection. The Improved Order Heptasophs s a fraternal beneficiary Order, requiring no oath, but a solemn obligation, and having a simple, impressive initiatory ceremony of the degree, with enough of secret society machinery to make it interesting and protect its members, and is conducted on strict business principles, yet conservative in its management. Its objects are to unite men of good moral character and to aid members and their dependents, and the families of those deceased. The cost of being a member is very low, being just enough to make payment assured in case of death, and should number many of our Bellefonte citizens.

Foster's Prediction.

My last bulletin gave forecasts of the storm wave to cross the continent from the 10th to the 20th, and the next wil reach the Pacific coast about the 21st, cross the western mountain country by the close of the 22d, the great central valleys from the 22d to 25th and the eastern states about the 25th. This disturbance will be of very considerable force, and while only a small portion of the country will receive rain from it, the principal rainfall of the month may be expected as it crosses the continent. The warm wave will cross the western mountain country about the 21st, the great central valley the 23d and the eastern states the 25th. The cool wave will cross the western mountain country about the 24th, great central valleys the 26th and eastern states the 28th.

More Fish.

In addition to the reports of catches of trout made on Monday we have the following:

Editor Harter 8, Chas. R, Kurtz, 14 measuring over 100 inches. Clayt Brown 32; John Gross 6; William Walker 36, one 14½ inches long and 28 of which weighed over 7 pounds; Herbert Shaefler 37—one 16½ inches long. John Anderson was out but a few minutes in the afternoon but claims to have made the prize catch a fine specimen 16 inches long and 4 inches deep weighing near about one pound. It is safe to conclude that yesterday's catch would aggregate 300 trout.

Paper Car Wheels.

Every wheel on a Pullman car is made of paper. You do not see the paper because it is covered with iron and steel. The body of a wheel is a block of paper about four inches thick. Around this is a rim of steel measuring from two to three inches. It is this thin steel rim, of course, which comes in contact with the rails. The sides are covered with circular iron plates bolted on. This is not alone confined to Pullman cars, but some of the heaviest engines have wheels made as described above.

Personal Pencilings.

George T. Bush returned on Monday evening from a trip East.

Judge and Mrs. John G. Love have returned from Philadelphia.

Mr. J. A. Daley, of Romola, was a pleasant caller at this office to-day.

Charles Garner, Jr., of Tyrone, was a visitor in Bellefonte on Monday.

Mr. Will Laughlin, of Lock Haven, spent Monday night in Bellefonte.

Miss Mamie Zeller, of Lock Haven, is a guest of her Aunt on Allegheny street.

Miss Patsy Lane is at home from boarding school spending her Easter vacation.

Miss May Bible, who has been visiting friends in the county, has returned to Bellefonte.

John Shrom, also a naval cadet on the training ship, Saratoga, is at home on his spring furlough.

Mrs. Rearick and daughter, of Spring Mills, were the guests of Mr. and Mrs. Ira C. Mitchell recently.

Miss Mame Rian, one of Lock Haven's charming young ladies, is visiting Miss Agnes Hull, in this place.

Mr. John Bower, son of C. M. Bower, Esq., is at home on a short visit from Franklin and Marshall college.

Miss Grace Mitchell, daughter of Mr. Isaac Mitchell, is visiting her aunt, Mrs. Charles Shaffner, in Philadelphia.

George T. Bush is off on another trip to Philadelphia and other Eastern cities. George is considerable of a traveler.

Mr. Claude Jones, of the Tyrone *Herald*, spent Wednesday in Bellefonte and in the evening attended the York–Noll wedding.

Mrs. Frank Lukenbach, after a delightful visit with friends in Bellefonte, returned to her home in Philipsburg Tuesday evening.

J. Kyle McFarlane, one of Buffalo Run's scientific farmers, was in town Saturday. Mr. McFarlane quotes the market on turnips as steady at 75 cents per bushel for prime goods.

Gen. James A. Beaver was a very prominent figure at the centennial of the Huntingdon Presbytery on Tuesday, and his address before that large body of Ecclesiastics was one of the most able delivered.

Mrs. Daniel McGinley came home from Scranton last Thursday, she having been there about two months undergoing treatment to restore her sight. Mr. Phil. McGinley, who went to Scranton for her, accompanied her home. We are glad to learn that she can see remarkably well, and she and her family are greatly gratified at the result.

Marriage Licenses.

Following is the list of marriage licenses granted by the register of Centre county during the past week:
